<i>You are applying for a loan with the following terms</i>		%	\$

If you expressed an interest in an adjustable rate loan and if the loan's initial rate is fixed for at least 5 years, the "Interest Rate" disclosed in this document is the initial rate that would be in effect at consummation. If the loan's initial rate is not fixed for at least 5 years, the Interest Rate is the fully-indexed rate that would be in effect at consummation without regard to any initial discount or premium.

This is not a lock-in agreement or a loan commitment. The interest rate and fees described throughout this disclosure are available on the date the document was prepared and they may be subject to change if you have not locked in your interest rate. If your lender offers rate locks you may be required to lock the rate to obtain the rate and origination cost disclosed above. Additionally, even if your loan is locked, the Interest Rate and fees may be subject to change as the loan is underwritten.

If your lender does offer rate locks and you have not locked your loan, please be aware that interest rates move constantly. The way to set a certain Interest Rate and fees is for you to request that your loan be locked. Once you lock your loan, you are agreeing to close your loan within a certain period of time and at a certain interest rate. If you instruct us to lock your loan, we can explain to you the Interest Rate and fees you will pay.

Be sure that you understand and are satisfied with the product and terms that have been offered to you. Signed:
