## 1. INTRODUCTION

These guidelines serve to provide direction and consistency in loan, borrower, and property eligibility.

### 1.1. LENDING PHILOSOPHY

AD Mortgage LLC (hereafter referred to as AD) evaluates several aspects of the borrower's credit, income, asset and equity profile along with the loan's attributes to make a reasonable and good faith determination on the borrower's ability to repay the loan.

Investment quality is determined by the borrower's credit, capacity, and collateral. A weakness in any one of the three components must be compensated by strengths in one or both of the remaining two components.

AD's Lending Eligibility Guidelines establish the criteria under which a loan is eligible.

AD Mortgage has a no-tolerance policy as it relates to fraud. Lenders should follow the established fraud and identity procedures on every loan in an effort to prevent and detect fraud (including, but not limited to, Social Security number verification, verbal verifications of employment, processing of 4506- C, etc.). Loans containing fraudulent documentation or information will immediately be declined and submitted for further internal review. If there is any determination of Loan Originator involvement, the Loan Originator will be made inactive, and the appropriate agencies notified. AD Mortgage will also pursue fraud carried out by a borrower, or any other person or party involved in the origination process, to the fullest extent of the law.

### 1.2. FAIR LENDING STATEMENT

AD Mortgage operates in accordance with the provisions of the Fair Housing Act and Equal Credit Opportunity Act. The Fair Housing Act makes it unlawful to discriminate in housing-related activities against any person because of race, color, religion, national origin, sex, handicap, or familial status. The Equal Credit Opportunity Act prohibits discrimination with respect to any aspect of a credit transaction on the basis of sex, race, color, religion, national origin, marital status, age (provided the borrower has the capacity to enter into a binding contract), receipt of public assistance, or because the borrower has in good faith exercised any right under the Consumer Credit Protection Act. AD Mortgage fully supports the letter and spirit of both laws and will not condone discrimination in any mortgage transaction.

### 1.3. RESPONSIBLE LENDING STATEMENT

The primary focus of this lending program is the extension of credit in a prudent manner such that the borrower has an ability to repay the mortgage obligation. Loans should be affordable to the borrower in his or her pursuit of homeownership and mortgage related financing needs.

AD's close-end second lien program guidelines are structured to guide its partners towards making common sense lending decisions on loans to borrowers who may have limited access to credit. A borrower's situation generally requires the lender to consider alternative forms of documenting income and/or compensating factors which offset risk indicated by less than pristine credit, such as a recent

credit event or elevated debt-to-income ratio. The borrower's ability to repay must be proven in all instances as it relates to consumer-based lending.

Under the general Ability-to-Repay (ATR) standard, lenders must make a reasonable, good-faith determination that the consumer has an ability to repay the loan at or before loan consummation. Lenders must verify information using third-party records that provide reasonably reliable evidence of income or assets.

If a loan is subject to the ATR rules under the Federal Truth in Lending Act ("TILA"), lenders must consider eight underwriting factors in making the repayment ability determination:

- Current or reasonably expected income or assets (other than the value of the property that secures the loan) that the consumer will rely on to repay the loan.
- Current employment status (if the loan relies on employment income when assessing the consumer's ability to repay).
- Monthly mortgage payment for this loan. Calculate this using the introductory or fully-indexed rate, whichever is higher, and monthly, fully-amortizing payments that are substantially equal.
- Monthly payment on any simultaneous loans secured by the same property.
- Monthly payments for mortgage-related obligations, such as property taxes and insurance, homeowner's association fees or ground rent.
- Debts, alimony, and child support obligations.
- Monthly debt-to-income ratio or residual income, that was calculated using the total of all mortgage and non-mortgage obligations listed above, as a ratio of gross monthly income
- Credit history.

AD will not fund a loan subject to the ATR requirement under TILA unless it meets the requirements of the rule. Certain loans may be exempt from TILA or otherwise exempt from the ATR rule. In those cases, though AD may choose to fund a loan that does not adhere to the formal requirements of the ATR rule, AD will only fund loans that the applicant appears able to afford based on application of prudent underwriting standards.

#### 1.4. REGULATORY COMPLIANCE

- Each loan must be originated, closed, serviced and transferred in compliance with all applicable federal, state and local laws, regulations and orders. Our compliance due diligence review, conducted on a secondary market basis, will analyze each loan to determine compliance with the necessary requirements.
- Note: AD will review loans to ensure that they comply with applicable regulations that are primarily under the jurisdiction of the Consumer Financial Protection Bureau (the "CFPB").
- In addition, please note that there are other rules and regulations that may be applicable and that additional rules and regulations may be enacted, and that such rules and regulations may be amended from time to time, and therefore the implementation or revision of such rules and regulations will affect and be relevant to the products as set forth herein.
- Business Purpose and Occupancy Affidavit must be signed by the borrower at closing.

### 1.5. FRAUD AWARENESS

Fraud can occur with any type of loan. A common definition of fraud is an act of intentional misrepresentation, concealment, or omission of the truth for the purpose of deception or manipulation with the intent of securing something by taking unfair advantage of another. AD Mortgage has a Zero Tolerance Policy on matters relating to fraud or misrepresentation.

The following state restrictions apply:

- Prepayment penalties are not allowed in AK, AR, KS, MI, MN, NM, OH (1-2 units with loan amount less than or equal to 116,356), RI and TX. Prepayment penalty buydown is required.
- Prepayment penalties are not allowed on loans vested to individuals in IL, NJ and VT. Prepayment penalty buydown required or close in LLC (maximum prepayment penalty period is 3 years in IL).
- Maximum prepayment penalty period is 2 years in MS.

- Maximum prepayment penalty period is 3 years in ID and MA.
- Maximum prepayment penalty period is 3 years in DC and MD. The prepayment charge will be equal to 2 months of interest on the amount of the prepayment that exceeds 20% of the original principal balance.
- Virginia and Maryland - Prepayment penalties are not allowed on loan balances less \$75,000.
- Pennsylvania - Prepayment penalties are not allowed on loan balances less than an adjusted value as determined by the Dept of Banking & Securities for 1-2 units. For calendar year 2026 the amount is \$329,411.

Note: States may impose different definitions of points and fees, rate/APR, or prepayment penalties that apply under HOEPA. States may also use different triggers in each category for determining whether a loan will be a "high-cost mortgage" (or equivalent terms) under state law. As a matter of policy, AD does not fund loans defined as high-cost mortgages (or equivalent terms) under Federal or state law, regardless of the basis for the loan's treatment as such.

## 2.7. EXCEPTIONS

Exceptions to published guidelines are considered on a case-by-case basis. Loans with exception requests should exhibit compensating factors. All exception requests must be submitted by the Requestor in writing to the Exceptions Committee via the Exception Form. The fully completed AD Mortgage Exception Request Form along with any supporting documentation is required. AD's decision to allow or deny any exception request relates only to whether AD will approve a loan.

## 2.8. ESCROWS – IMPOUND ACCOUNTS

AD Mortgage does not require escrow funds/impound accounts to be established for all second lien loans originated by AD Mortgage, regardless of whether or not the 1st lender has an escrow account.

Please refer to AD Matrix for LTV restrictions and additional criteria.

Flood Insurance Escrows can never be waived regardless of loan type or program, unless escrowed with a first mortgage loan payment.

### 3. OCCUPANCY TYPE

#### 3.1. PRIMARY RESIDENCE

A primary residence (or owner-occupied property) is a dwelling occupied by the borrower as his or her principal residence.

To qualify as a primary residence, the transaction should meet each of the following criteria:

- Property is in the same general area as the borrower's employment,
- Borrower intends to occupy the subject property for the majority of the year,
- Borrower intends to occupy the subject property within 60 days of closing the loan, and
- Property possesses physical characteristics that accommodate the borrower's family.

#### 3.2. SECOND HOME

A second home is a dwelling occupied by the borrower in addition to their primary residence (may also be referred to as a vacation home). Second homes are restricted to 1-unit dwellings.

Typical second homes should meet the following criteria:

- Be located a reasonable distance away from the borrower's primary residence or located in an area considered a vacation area.
- Must be occupied by the borrower for some portion of the year.
- Suitable for year-round occupancy.
- Borrower must have exclusive control over the property.
- Must not be subject to any timeshare arrangements, rental pools or other agreements which require the borrower to rent the subject property or otherwise give control of the subject property to a management firm.

#### 3.3. INVESTMENT PROPERTY

An investment property (or non-owner-occupied property) is an income-producing property that the borrower does not occupy.

Unless otherwise noted, gift funds are acceptable only if a 10% down payment has been made by the borrower from their own resources.

Please refer to AD Matrices for additional details and criteria.

## 4. TRANSACTION TYPE

### 4.1. PURCHASE

A purchase transaction is one which allows a buyer to acquire a property from a seller.

#### 4.1.1. DOCUMENTATION REQUIRED

A copy of the fully executed purchase contract and all necessary attachments/addendum are required.

#### 4.1.2. LOAN TO VALUE

The lesser of the purchase price or appraised value of the subject property is the original value used to calculate the loan-to-value, with consideration to the value derived from the secondary valuation waterfall.

### 4.2. REFINANCE

- All existing subordinate liens must be satisfied.
- All Solar Panel loans and leases with PACE/HERO financing must be paid off.

#### 4.2.1. REFINANCE TYPES

- Rate/term refinance
- Cash-out refinance

#### CREDIT REQUIREMENTS FOR ALL REFINANCE TRANSACTIONS

- All mortgage accounts must be current at the time of application and remain paid as agreed through closing.
- For any mortgage associated with the subject property:
  - If the borrower had a mortgage late on the subject property within the last 12 months, the mortgage account must have been paid as agreed for the 3 months prior to closing of the new AD transaction.
  - If the mortgage payoff statement indicates any evidence the borrower is delinquent, such as, but not limited to Attorney Fees, Default Interest or Modification Fee, AD will require evidence of the last three months of verified mortgage payments via check, bank statement or wire transfer.

#### 4.2.2. RATE/TERM REFINANCE

A Rate/Term refinance is the refinancing of an existing mortgage for the purpose of changing the interest and/or term of a mortgage without advancing new money on the loan. A rate/term refinance is ineligible when the payoff mortgage was originated, funded, or is held by an immediate or extended family member of the borrower or business partner.

At least one borrower on the new loan must be an owner (on title) of the subject property at the time of the initial application. Exceptions are allowed if:

- the borrower acquired the property through an inheritance or was legally awarded the property (such as through a divorce, separation, or dissolution of a domestic partnership); or
- the property was previously owned by an inter vivos revocable trust and the borrower is the primary beneficiary of the trust.
- the borrower is currently financially obligated on the loan being paid off but not on the title. This includes loans where the property is currently owned by a limited liability corporation (LLC) that is majority owned or controlled by the borrower(s). The LLC is considered majority-owned by the borrower(s) in the following scenarios:
  - Scenario A: The borrower is 50% owner and non-borrower is 50%.
    - The borrower is not the majority owner. Time vested in LLC is not applied to seasoning.
  - Scenario B: The borrower is 51% owner and non-borrower is 49%.
    - The borrower is the majority owner. Time vested in LLC is applied to seasoning.
  - Scenario C: The borrower is 40% owner and non-borrowers are 20%, 20%, and 20% owners.
    - The borrower is the majority owner. Time vested in LLC is applied to seasoning.
  - Scenario D: The borrower is 50% owner and non-borrowers are 25% and 25% owners.
    - The borrower is the majority owner. Time vested in LLC is applied to seasoning.

If Quitclaim Deed with no value conveyed is used as the acquisition method within the last 12 months, maximum CLTV of 65%, unless one of the following applies:

- The mortgage is reporting on the borrower's credit report (credit supplement is not acceptable as a substitute), or
- The mortgage is held in an LLC where the borrower had  $\geq 25\%$  ownership at the time the loan was opened per title commitment, or
- The borrower acquired the property through an inheritance or was legally awarded the property (such as through a divorce, separation, or dissolution of a domestic partnership)

The mortgage amount for a Rate/Term refinance is limited to the sum of the following:

- Closing costs and prepaid items (interest, taxes, insurance) on the new mortgage.
- The amount of any subordinate mortgage liens used in their entirety to acquire the subject property (regardless of seasoning).
- The amount of a home equity line of credit in subordinate lien position that was used in its entirety to acquire the subject property (regardless of seasoning).
- Any subordinate financing that was not used to purchase the subject property provided:
  - For closed end seconds, the loan is at least one year seasoned as determined by the time between the note date of the subordinate lien and the application date of the new mortgage.
  - For HELOCs and other open-ended lines of credit, the loan is at least one year seasoned

and there have been less than \$2,000 in total draws over the past 12 months.

If the most recent first mortgage transaction on the property was a cash-out refinance within the last 6 months, the new mortgage is not eligible. Note date to note date is used to calculate the 6 months.

If the subject property was acquired greater than twelve (12) months from note date, the appraised value will be used to determine LTV/CLTV. If the property was acquired less than or equal to twelve (12) months from the note date, the lesser of the current appraised value or purchase price plus documented improvements (if any) will be used to determine LTV/CLTV.

For Rate/Term transactions, the borrower may only receive cash back in an amount that is the lesser of 2% of the new mortgage balance or \$5,000.

#### 4.2.3. CASH-OUT REFINANCE

A cash-out refinance is a refinance that does not meet the Rate/Term refinance definition. Cash-out would include a refinance where the borrower receives cash from the transaction or when an open-ended subordinate lien (that does not meet the Rate/Term seasoning requirements) is refinanced into the new transaction.

A mortgage taken out on a property previously owned free and clear is always considered a cash-out refinance.

A first mortgage must be at least 6 months old at the time of refinance, as measured by the note date of the existing loan to the note date of the new loan.

Two or more cash-out refinances in the past twelve months are not eligible.

The mortgage amount for a cash-out refinance transaction may include any of the following:

- Existing second mortgage payoff.
- Closing costs and prepaid items (interest, taxes, insurance) on the new mortgage.
- The amount of any subordinate mortgage liens being paid off that do not meet seasoning and draw history requirements as described in Rate/Term Refinance section.
- The amount of any non-mortgage related debt paid off through closing.
- Additional cash in hand reflected on the settlement statement.

Cash-out proceeds on an investment property must be used only for a business purpose. It cannot be used for personal, family or household purposes (e.g. student debt, medical bills, personal credit card pay-off, personal tax lien or judgement payoff and etc.)

#### CASH-OUT SEASONING AND DETERMINATION OF VALUE

Note date is used for Cash-Out Seasoning calculations.

Cash-Out Seasoning of six (6) months or less on all occupancy types is not allowed. The borrower must own property at the time of the application for Cash-out refinance.

At least one borrower must be on title to the subject property for at least six months prior to the disbursement date unless one of the following exceptions apply:

- The borrower acquired the property through an inheritance or was legally awarded the property (divorce, separation, or dissolution of a domestic partnership)
- If the property was owned prior to closing by a limited liability corporation (LLC) that is majority-owned or controlled by the borrower(s), the time it was held by the LLC may be counted towards meeting the borrower's six-month ownership requirement. The LLC is considered majority-owned by the borrower(s) in the following scenarios:
  - Scenario A: The borrower is 50% owner and non-borrower is 50%.
    - The borrower is not the majority owner. Time vested in LLC is not applied to seasoning.
  - Scenario B: The borrower is 51% owner and non-borrower is 49%.
    - The borrower is the majority owner. Time vested in LLC is applied to seasoning.
  - Scenario C: The borrower is 40% owner and non-borrowers are 20%, 20%, and 20% owners.
    - The borrower is the majority owner. Time vested in LLC is applied to seasoning.
  - Scenario D: The borrower is 50% owner and non-borrowers are 25% and 25% owners.
    - The borrower is the majority owner. Time vested in LLC is applied to seasoning.
- If the property was owned prior to closing by an inter vivos revocable trust, the time held by the trust may be counted towards meeting the borrower's six-month ownership requirement if the borrower is the primary beneficiary of the trust.

Cash-Out Seasoning from six (6) to twelve (12) months is allowed with the following restrictions:

- Maximum CLTV ratio for the cash out transaction is based upon the lower of the current appraised value or the purchase price plus documented improvements.

#### 4.2.4. PROPERTIES LISTED FOR SALE

To be eligible for a Rate/Term refinance, the subject property must be taken off the market on or before the application date. For investment property, if the subject property was listed for sale in the past 12 months prior to application date, a minimum of 36 months prepayment penalty would be required, and the borrower cannot buydown to no prepayment penalty unless prepayment penalty is prohibited by state.

To be eligible for a cash-out refinance, the subject property must not be listed for sale in the past 6-months. For investment property, if the subject property was listed for sale in the past 12 months prior to application date, a minimum of 36 months prepayment penalty would be required, and the borrower cannot buydown to no prepayment penalty unless prepayment penalty is prohibited by state.

#### 4.2.5. BENEFIT TO BORROWER

In keeping with the commitment of responsible lending, all primary residence and second home refinance transactions must have a benefit to the borrower, as evidenced by at least one or more of the following:

- Balloon payoff

- Title transfer
- Property retention
- Rate reduction
- P&I reduction
- Debt reduction
- Avoidance of Foreclosure
- Uncontrolled cash-out

State-specific and/or federal benefit to borrower compliance requirements must be adhered to. AD, as well as its Loan Originators, must document relevant calculations and data which support such benefit to the borrower. Additional restrictions apply if the new loan refinances an existing loan considered to be a special mortgage. A special mortgage is originated, subsidized, or guaranteed by or through a state, tribal, or local government, or nonprofit organization that either bears a below-market interest rate at the time the loan was originated or has nonstandard payment terms beneficial to the borrower, such as payments that vary with income, are limited to a percentage of income, or where no payments are required under specified conditions.

If the borrower will lose one or more of the benefits of the special mortgage, then both of the following apply:

- Lender must check that the loan complies with all applicable state and local laws as well as laws associated with the subject special loan program;
- Lender must take special care to ensure a net tangible benefit to the borrower.

#### 4.2.6. PIGGYBACK

If first and second mortgage is done simultaneously by the borrower and the first mortgage is not originated by AD the following documents must be provided:

- The most recent disclosure or loan estimate from first mortgage at the time of submission to AD
- Final approval letter for first mortgage loan showing all conditions have been satisfied
- Concurrent first note and final closing disclosure from first mortgage transaction

#### 4.2.7. INELIGIBLE DEBT PAYOFF

This restriction applies only when the lender who originated the prior debt is also acting as the correspondent lender for the new refinance. **This section does not apply to AD refinancing its own previously originated loans, nor does it apply when the lender is an institutional bank or credit union.**

Refinances that involve the payoff of a debt owed to the originating lender or to an affiliate of the originating lender are ineligible for financing. If the debt being satisfied through the new transaction was originated, funded, or is currently held by the same lender originating the refinance, the transaction is not considered a bona fide refinance and is not permitted.

This restriction applies to all occupancy types and product programs, including both rate-and-term and cash-out refinances.

Examples of ineligible scenarios include, but are not limited to:

- The borrower obtained a private or bridge loan directly from the originating lender (or its affiliate) for acquisition or renovation, and that debt is now being paid off with the refinance proceeds.
- The original loan was table-funded by, or assigned to, the same lender that is now originating the refinance.

## 5. TRANSACTION SPECIFIC

### 5.1. FLIP TRANSACTIONS

When the subject property is being resold within 365 days of its acquisition by the seller and the sales price has increased more than 10%, the transaction is considered a “flip”. To determine the 365-day period, the acquisition date (the day the seller became the legal owner of the property) and the purchase date (the day both parties executed the purchase agreement) should be used.

Flip transactions are subject to the following requirements:

- All transactions must be arm’s length, with no identity of interest between the buyer and property seller or other parties participating in the sales transaction.
- The property was marketed openly and fairly, through a multiple listing service, auction, for sale by owner offering (documented) or developer marketing.
- No assignments of the contract to another buyer.
- If the property is being purchased for more than 5% above the appraised value, a signed letter of acknowledgement from the borrower must be obtained.

Flip transactions must comply with the HPML appraisal rules in Regulation Z. The full Reg Z revisions can be found at <http://www.consumerfinance.gov/policy-compliance/rulemaking/final-rules/appraisals-higher-priced-mortgage-loans/>.

For all transactions (HPML and non-HPML), a second full appraisal is required in the following circumstance:

- Greater than 10% increase in sales price if seller acquired the property in the past 90 days.
- Greater than 20% increase in sales price if seller acquired the property in the past 91-365 days.

The percentage increase in sales price is calculated and then rounded **upward to the next whole percentage**. Any fractional percentage is rounded up (e.g., 19.15% → 20%).

Property flipping guidelines do not apply if the prior transaction involved a sale below market value due to a foreclosure sale or deed-in-lieu of foreclosure.

A second appraisal will be paid for by AD (brokered loans only) only in cases provided for by CFPB's Reg. Z requirements for flip appraisals. In all other instances, a second appraisal is paid for by the borrower.

### 5.2. NON-ARM’S LENGTH TRANSACTIONS

Non-arm’s length transactions involve a direct relationship outside of the subject transaction between a borrower/buyer and a party to the loan. The appraiser must be informed of the relationship and address any impact on market value.

When the property seller is a corporation, partnership, or any other business entity, it must be ensured that the borrower is not an owner of the business entity selling the property.

Examples of non-arm’s length transactions include, but are not limited to, the following:

- Family member sales.

- Buyer trading properties with the seller.
- Property seller foreclosure bailouts.
- Existing buyer relationship with closing agent, appraiser, builder, or developer.

Non-arm's length transactions are subject to all of the following requirements:

- Primary residence only.
- Relationship must be fully disclosed.
- An appraisal review product is required.
- Borrower to provide a written explanation stating relationship to the seller and reason for purchase.
- Borrower to provide a copy of the canceled earnest money check paid to the property seller or to the title/escrow agent.
- AD must be satisfied that the transaction makes sense and that the borrower will occupy the property.
- All liens on title to be paid in full and reflected on the settlement statement.
- Lesser of sales price or current appraised value to be used to calculate the CLTV.
- Maximum CLTV is 65%, unless it is a gift of equity then max CLTV 75.
- Borrowers cannot provide services on transaction (closing agent, title agent, appraiser, etc.).
- Borrower may not be an owner of a business entity selling the subject property.
- Employer to employee sales or transfers are not allowed.
- Property trades between buyer and seller are not allowed.
- Commission earned by buyer/borrower cannot be used for down payment or monthly PITIA reserves.
- If property was acquired by seller within last 12 months, lower of purchase price or appraised value will be used.

The following additional requirements apply only to family sales:

- Payment history for the seller's mortgage on the subject property must be obtained and show no pattern of delinquency within the past 12 months (if applicable). Foreclosure bailout is not allowed.
- Verification that the borrower has not been in title to the property in the past 24 months.

Gift of equity is allowed following the requirements below:

- Primary Residence only.
- Maximum 75% CLTV.
- Must meet all other guidelines for Gift Funds.
- Gift of Equity requires a gift letter, and the equity gift credit is to be shown on the CD.
- Private mortgages on the property are not allowed, the grantor's soft-pulled credit report is required.

### 5.3. INHERITED PROPERTIES

Inherited properties are allowed as both Rate/Term and cash-out transactions. If the subject property was inherited < 12 months prior to application, the transaction is subject to the following, if applicable:

- Subject property has cleared probate and property is vested in the borrower's name.
- Current appraised value is used to determine loan-to-value.

### 5.4. LAND CONTRACT/CONTRACT FOR DEED

When the proceeds of a mortgage transaction are used to pay off the outstanding balance on a land contract that was executed more than 12 months prior to the date of the loan application, the transaction is considered Rate/Term refinance.

If the land contract was executed within 12 months of the date of the loan application, the transaction is considered a **purchase**.

The following requirements apply:

- Primary residence only.
- Copy of fully executed land contract and payoff(s) to be obtained.
- Copies of canceled checks for 12 months (or term of the lease if less) as evidence of timely payments.
- If the land contract was executed less than 12 months ago, the borrower's previous housing payment history must also be verified to complete a completed 12-month history.
- Liens on title to be paid in full and reflected on settlement statement at closing.
- If the contract was executed less than 12 months ago, the lesser of the purchase price or the current appraised value must be used to determine CLTV. The current appraised value may be used to determine CLTV if the land contract was executed over 12 months ago.
- Cash-out and non-arm's length transactions not eligible.

### 5.5. LEASE WITH PURCHASE OPTION

Lease with purchase option transactions is allowed for primary residences only. Borrowers may apply a portion of the rent paid to their down payment requirements.

For lease with purchase option transactions, the file must contain:

- Copy of fully executed rental/purchase agreement verifying monthly rent and the specific terms of the lease.
- Rent Schedule (FNMA Form 1007).
- Copies of canceled checks for 12 months (or term of lease if less) as proof of rental payments.
- Credit for down-payment can only be a difference between current rent and market rent.

## 5.6. PERMANENT FINANCING FOR NEW CONSTRUCTION

The conversion of construction-to-permanent financing involves the granting of a long-term mortgage to a borrower to replace interim construction financing obtained by the borrower to fund the construction of a new residence. The borrower must hold title to the lot, which may have been previously acquired or purchased as part of the transaction.

When a refinance transaction is used, the borrower must have held legal title to the lot before he/she applied for the construction financing and must be named as the borrower for the construction loan.

A construction-to-permanent transaction may be closed as a purchase, Rate/Term refinance or cash-out refinance. All construction work must be complete.

For lots owned  $\geq 12$  months from application date for the subject transaction, CLTV is based on the current appraised value.

For lots owned  $< 12$  months from application date for subject transaction, CLTV is based on the lesser of the current appraised value of the property or the total acquisition costs (sum of construction costs and purchase price of lot).

## 5.7. STATE SPECIFIC

Texas 50(a)(6) and PR are ineligible.

If the borrower does not have ownership of a primary residence in Texas at the time of application, the borrower must provide confirmation from the title company prior to submission that the transaction can be closed as a non-50a6 file, otherwise, the cash out transaction will be considered as Texas Section 50(A)(6) Transactions and will be ineligible.

## 5.8. 1031 EXCHANGE

Assets for the down payment from a “like-kind exchange,” also known as a 1031 exchange, are eligible if properly documented and in compliance with Internal Revenue Code Section 1031. IRS code does not allow to use 1031 Exchange on a primary residence and AD will follow Fannie Mae restrictions.

## 6. UNDERWRITING

### 6.1. MANUAL UNDERWRITING

All Closed-end second loans are required to be manually underwritten. AD Closed-end second Guidelines are proprietary portfolio guidelines and can be used as an overlay to the most recent version of the FNMA Guidelines found at <https://www.fanniemae.com/content/guide/selling/index.html>. Where the Closed-end second lien guidelines are silent, FNMA Guidelines may be followed, subject to underwriter discretion.

### 6.2. AGE OF DOCUMENTATION

Credit documents include credit reports, employment, and income documentation. If the credit documents are older than allowed, the document must be updated.

| Type                                         | Age of Documentation                                                                                  |
|----------------------------------------------|-------------------------------------------------------------------------------------------------------|
| Credit Report                                | No more than 60 days old before Submission Date and no more than 120 days before date Note is signed. |
| Income                                       | No more than 120 days before date Note is signed.                                                     |
| Assets                                       | No more than 120 days before date Note is signed.                                                     |
| Appraisal                                    | No more than 360 days before date Note is signed.                                                     |
| Title Commitment & Closing Protection Letter | No more than 90 days before date the Disbursement/Funding date.                                       |

### 6.3. CUSTOMER IDENTIFICATION PROGRAM (CIP)

The USA Patriot Act requires banks and financial institutions to verify the name, date of birth, address, and identification number of all borrowers. Loan Originators are to follow the published CIP procedures for AD to ensure the true identity of all borrowers has been documented – the CIP requirements can be found at [https://www.ffiec.gov/bsa\\_aml\\_infobase/pages\\_manual/olm\\_011.htm](https://www.ffiec.gov/bsa_aml_infobase/pages_manual/olm_011.htm)

### 6.4. FRAUD REPORT & LOAN INTEGRITY

All loans must include a third-party fraud detection report for all individuals as borrowers/guarantors. Report findings must cover standard areas of quality control including, but not limited to:

- borrower validation,
- social security number verification,
- National Fraud Protection Database check, and
- property information (subject property and other real estate owned).

\*All high-level alerts on the report must be addressed and cleared by the Lender

If the Lender cannot electronically access the fraud report to clear high-level alerts within the fraud provider's system, an Underwriter's Certification from the Lender is acceptable. The Certification must address each individual high alert and explain what actions were taken to satisfy the issues. It must be signed and dated by a member of the Lender's underwriting staff or operations management personnel.

### 6.5. CREDIT STANDARDS

A tri-merged credit report is required. Unless otherwise addressed per specific program/borrower type, Fannie Mae underwriting guidelines must be followed for evaluating a borrower's credit history.

Credit reports with bureaus identified as "frozen" are required to be unfrozen and a current credit report with all bureaus unfrozen is required.

#### 6.5.1. CREDIT SCORES

US Citizens, Permanent Residents or Non-Permanent Residents residing in United States, the lowest qualifying score of all applicants is used to qualify. The qualifying score is defined as the lower of 2 or middle of 3 scores for each borrower. Borrowers with 1 available credit score reviewed on a case-by-case basis. Borrowers with no available credit score which contain no evidence of prior adverse or negative credit history are eligible for financing on the Prime program. For pricing and eligibility purposes refer to Eligibility Matrix with "No Fico" bucket. If the score is available, the loan may be priced using the actual Representative Loan Score. Borrowers with no credit scores may be considered for DSCR program on a case-by-case basis.

Foreign Nationals are not subject to credit score requirements unless Credit Score history is available. Foreign Nationals with active credit scores, will use middle of 3 or lowest for 2 or 1 if only 1 score available for FICO/LTV eligibility criteria and worst-case pricing.

For all programs, the applicable credit score is the middle of three scores provided for any borrower. If only two credit score are obtained, the lesser of two will be used. When there are multiple borrowers/guarantors, the lowest applicable score (if at least one No FICO - worst case between existing score and no FICO) from the group of borrowers/guarantors is the representative credit score for qualifying (the Representative Loan Score).

#### 6.5.2. TRADELINE REQUIREMENTS

Refer to program specific guidelines for additional tradeline requirements, if any.

| Minimum Tradelines  |                                     |                                                                                                                                                         |
|---------------------|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| Tradelines          | Occupancy                           | Minimum Requirements                                                                                                                                    |
| STANDARD TRADELINES | Primary and Second Homes Investment | 3 tradelines reporting for 12 or more months and active within 12 months OR<br>2 tradelines reporting for 24 or more months and active within 12 months |

To qualify as an acceptable tradeline, the credit line must be reflected on the borrower's credit report. The account must have been open at any given moment in the last 12 months.

Reporting tradeline period refers to how many months such tradeline has been captured on the credit report.

Accounts with delinquencies are allowed when the account has reported no more than 30-days past due. An acceptable 12 or 24-month housing history not reporting on credit report may also be used as a tradeline.

Credit lines on which the borrower or co-borrower is not obligated to make payments are not acceptable for establishing a minimum history. Examples of unacceptable tradelines include loans in a deferment period, collection or charged-off accounts, accounts discharged through bankruptcy, and authorized user accounts. Student loans can be counted as tradelines as long as they are in repayment and are not deferred.

### 6.5.3. STANDARD TRADELINES

Borrowers qualifying with Standard Tradelines are eligible for all occupancy types and programs.

### 6.5.4. INSUFFICIENT TRADELINES/ALTERNATIVE CREDIT

If the borrower does not meet the requirements for Standard Tradelines but still has a valid credit score and alternative trade lines, borrower may still qualify for Standard Tradelines. For example, if the borrower has one standard tradelines for 12 months then two alternative tradelines for 12 months are required. If the borrower has one standard tradeline for 24 months, then one alternative tradeline for 24 is required. Tradelines with recent serious adverse history are not acceptable.

Acceptable alternative credits:

- 12- or 24-months' rent verification (Professional Management Company VOR for 12 or 24 months, or Private VOR for 24 months + 6 months of canceled checks)
- 12 or 24 months' private mortgage payments (Private VOM for 12 or 24 months + 2 months of canceled checks)
- 12- or 24-months' utility bill (ex. gas, electricity, water, internet) verification
- 12- or 24-months' phone bill verification
- 12- or 24-months' HOA bill verification
- 12- or 24-months' insurance bill verification

### 6.5.5. CREDIT EVALUATION

All accounts, revolving and installment, reported by the borrower on the application must be verified directly by a credit reference or verified on the credit report. The balance, rating and terms of the account must be verified.

Past due consumer debts can be no more than 30 days past due at time of closing.

Credit Events and bankruptcies in the most recent 2 years must be explained by the borrower with a signed letter of explanation. Housing and consumer lates  $\geq$  60 days in the last 12 months also require written explanation. Supporting documentation may be required.

The underwriter must review the credit report for consumer lates to determine if the credit history is acceptable for the related program. If the consumer lates are not acceptable, underwriter may downgrade the allowable program or can choose to decline to extend credit to such borrower.

AD Mortgage considers a mortgage lien private if any of the following criteria are met:

- It is not reported on the borrower’s credit report (liens appearing only on a credit supplement are still considered private).
- It is not recorded as a mortgage lien, as verified through title documents, DataTree, county records, or similar sources.
- The mortgage documents include a default interest rate that is higher than the stated interest rate.

### 6.5.6. MORTGAGE PAYMENT HISTORY

Mortgage payment history for the subject property must be verified for the most recent 12 months for mortgages not reported on the credit report and 24 months for mortgages reflected on credit report.

- See below regarding delinquency requirements.
- On the date of the loan application, the borrower’s existing mortgage must be current, which means that no more than 45 days may have elapsed since the last paid installment date.
- If the borrower acquired the property through an inheritance, the borrower must provide an acceptable payment history after the acquisition date.

Acceptable sources include institutional or private Verification of Mortgage (VOM). The underwriter must obtain the current balance, current status, monthly payment amount and a satisfactory 12-month payment history. Cancelled checks for the most recent 2 months to verify the validity of the 12-month VOM are required if the mortgage is serviced by the private servicer or not reported on credit report.

### ANALYZING DELINQUENT MORTGAGE PAYMENTS HISTORY

Mortgage/housing payment history is determined as follows:

- 3 rolling 30-day lates are considered 1x30, each consecutive mortgage delinquency thereafter must be considered separately.
- 60, 90, 120-day lates are not considered for rolling.

Following program eligibility criteria applies:

| Program                                     | Delinquency Requirement | Description                                                                                                                                   |

|--------------------------------------------------------------|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| US Citizens / Perm / Non-Perm. / Alt-Income DSCR             | 0x30x12 and 0x90x24 | Borrower cannot have mortgage lates within last 12 months prior to note date and 0x90 mortgage lates within last 24 months prior to note date |

- Homeowners insurance indicating no mortgagee.
- A 3rd party lien search or written documentation received from <http://www.protitleusa.com/>.

Borrower's owning 4 or more properties, the following criteria will apply:

- A mortgage history will be required on (3) largest investment properties, including the subject property (unless subject transaction is a purchase). In addition, the borrower's primary residence housing history is required to be verified.

In addition, the payoff statement for the subject property can reflect no more than 30-days of accrued interest.

For borrower's owning fewer than 4 properties, the payment history for all financed properties must be verified for the most recent 24-month period if mortgage is reflected on credit report and 12-month period if mortgage is not reflected on credit report. If the borrower acquired properties through an inheritance, the borrower must provide an acceptable payment history after the acquisition date.

\*When an REO is stated at initial as free and clear on DSCR loan files we do not require further verification.

### HOUSING PAYMENT HISTORY PROPERTIES OWNED BY BUSINESS

Properties other than subject property not reported on credit report owned by the business are excluded from liabilities and housing verification. Evidence the property is owned by the business must be documented (lien search showing the property is owned by the business, mortgage statement showing borrower is the business, 12-months cancelled checks, or other 3rd party documentation to confirm the property is owned by the business.

### 6.5.7. PAYMENT HISTORY ON ANY OTHER PROPERTY

Regardless of occupancy, payments on a manufactured home or second mortgage are considered to be a mortgage debt, even if reported as an installment loan.

### 6.5.8. CREDIT EVENTS – BANKRUPTCY / FORECLOSURE / SHORT-SALE / DEED-IN-LIEU / MODIFIED LOAN / FORBEARANCE/ DEFERRALS / 120+ DAYS DELINQUENT

AD considers Bankruptcy, Foreclosure, Short-Sale, Deed-in-Lieu, Loan Modification, Forbearance, Deferrals and 120+ days delinquent as a prior Credit Event. Refer to the specific product matrix for further seasoning requirement information.

In case of COVID-19 forbearance, the borrower is eligible for a new mortgage loan after they make at least three timely, consecutive payments as of the note date of the new transaction. These three payments must be consecutive and may not be made as a lump sum payment.

### CHAPTER 7, 11 AND CHAPTER 13 BANKRUPTCY

#### 6.5.11. LAWSUIT OR PENDING LITIGATION

If the application, title, or credit documents reveal that the borrower is presently involved in a lawsuit or pending litigation, a statement from the borrower's attorney is required. The statement must explain the circumstances of the lawsuit or litigation and discuss the borrower's liability and insurance coverage. Details of lawsuit must be reviewed to ensure it is unlikely to significantly impact the borrower's financial situation in a negative way, it will not impact the borrower's ability to make the mortgage payment or in any way jeopardize the subject property.

#### 6.5.12. GAP CREDIT REPORT

AD mortgage will monitor borrower's debts until closing date and may adjust DTI values at any time should new trade lines appear, or monthly payments change.

#### 6.5.13. JUDGEMENT AND TAX LIENS

Tax liens and court-ordered judgments must be paid in full.

#### 6.5.14. FEDERAL INCOME TAX INSTALLMENT AGREEMENT

When a borrower has entered into an installment agreement with the IRS to repay delinquent federal income taxes, the lender may include the monthly payment amount as part of the borrower's monthly debt obligations (in lieu of requiring payment in full) if:

- There is no indication that a Notice of Federal Tax Lien has been filed against the borrower
- The lender obtains the following documentation:
  - an approved IRS installment agreement with the terms of repayment, including the monthly payment amount and total amount due; and
  - evidence the borrower is current on the payments associated with the tax installment plan. Acceptable evidence includes the most recent payment reminder from the IRS, reflecting the last payment amount and date and the next payment amount owed and due date. At least one payment must have been made prior to closing.

If any of the above conditions are not met, the borrower must pay off the outstanding balance due under the installment agreement with the IRS in accordance with Fannie Mae requirements: B3-6-07, Debts Paid Off At or Prior to Closing.

#### 6.5.15. BANK STATEMENTS ANALYSIS TOOLS

AD can accept bank statement analysis tools for calculation of deposits and NSFs attached to the file with underwriter's certification and bank statements review.

## 6.6. INCOME AND EMPLOYMENT

Stable monthly income is the borrower's verified gross monthly income from all acceptable and verifiable sources that can reasonably be expected to continue. While the sources of income may vary, the borrower should have a consistent level of income despite changes in the sources of income.

Can commingle documentation types subject to guideline restrictions and underwriter discretion (i.e., no tax returns in bank statement programs, DSCR is standalone).

Verification for Employed Borrowers:

A minimum two (2) year employment history is required. Any gaps in employment that span one or more months must be explained.

AD is allowing some flexibility in lieu of the traditional verbal verification of employment with one of the following methods:

- Written VOE: An email directly from the employer's work email address that identifies the name and title of the verifier and the borrower's name and current employment status may be used in lieu of a verbal VOE. This is required within 10 business days of the note date.
- Paystub: The underwriter may obtain a year-to-date paystub from the pay period that immediately precedes the note date.

Verification for All Self-Employed Borrowers:

- Underwriter must verify the existence of the business within 120 business days of the note date and ensure the business is active. Acceptable methods of business verification include:
  - Secretary of State Website. A list of SOS websites may be found at <https://e-secretaryofstate.com/>
  - Verifying a phone listing and address for the borrower's business using a telephone book, the Internet, or directory assistance
  - Active Insurance policy (Errors & Omissions)
  - Documentation showing registration for remitting sales tax
  - Paid Supplier Invoices
  - Bank Statements with transactions within 120 days
  - Certificate of business existence issued within 120 days
  - CPA verification
- For bank statements programs a business narrative is required prior to submission.
- Underwriter must consider the financial strength of a self-employed borrower's business.
- Underwriter will complete review on borrower's business to validate 2 and more years of existence, and business ownership %. The borrower's business used for qualifying purposes must have been in existence for at least two years. The borrower also must own the business for at least two years in case of the change of ownership. A change in structure is allowed with proper documentation – example borrower previously was a sole proprietor but has changed structure to an LLC with 100% ownership. A minimum of 25% ownership is required for self-employed borrowers.

- A change in the ownership structure of the business during the life of the loan is prohibited.
- CPA Letter requirements:
  - Attestation that the CPA/Tax Preparer/Enrolled tax agent has filed or reviewed at least previous year of tax returns or financial audit for the borrower.
  - The letter must be signed by CPA/Tax Preparer/Enrolled tax agent and include the preparation date of the document.
  - The license number must be provided.
  - CPA cannot be an employer, employee or a relative of the borrower.
- Underwriter must verify the business ownership using one of the following methods:
  - If the borrower's business registered as single-member LLC/Corporations then the borrower must provide Articles of Incorporation (or state equivalent) and most recent filing with secretary of state. If articles of Incorporation do not list its owners, then CPA Letter with Ownership Breakdown or Addendum will be required. CPA/Tax Preparer/Enrolled tax agent must have either filed or reviewed previous year returns or financial audit.
  - If the borrower's business registered as multiple-member LLC/Corporations/Partnerships and
    - Articles of Incorporation (or state equivalent) **list** its owners, then the borrower must provide Articles of Incorporation, most recent filing with secretary of state and CPA Letter/Operating Agreement/Corporate Bylaws with Ownership Breakdown or Addendum.
    - Articles of Incorporation (or state equivalent) **do not list** its owners, then the borrower must provide Articles of Incorporation, most recent filing with secretary of state and CPA Letter with Ownership Breakdown or Addendum.
  - Sole Proprietor with an EIN can provide EIN letter and most recent filing with secretary of state. If the borrower does not have an EIN or the most recent filing with secretary of state cannot be provided, the borrower must provide a CPA Letter. It must indicate self-employed history and that the borrower is a Sole Proprietor.
- Business ownership will be compared to government resources records to verify consistency with documentation.

#### Furloughed Borrowers:

A furlough is a suspension from active employment that does not typically guarantee restoration of an employee's position when the furlough period ends. Until furloughed employees return to work, they are unable to provide evidence of a stable and reliable flow of employment related income and are therefore ineligible.

#### Non-Profit:

Non-Profit businesses need to be full doc to confirm borrower's actual income.

### 6.6.1. FULL INCOME DOCUMENTATION (24-months)

- When tax returns are required, the most recent two years should be provided. The definition of most recent is the last return scheduled to have been filed with the IRS. Any Borrower that applied for a tax return extension must provide a copy of the extension in the credit file along with the prior two years of tax returns.
- Amended Tax Returns will not be considered unless both the original and amended returns along with a clear explanation for the changes are provided. Tax Returns that appear to be amended solely to increase income for mortgage qualification will not be accepted.
- Wage or Salaried Borrowers:
  - The borrower's recent paystub (reflecting 30 days of pay and YTD earnings) and IRS W-2 forms covering the most recent two-year period. Year-end paystubs can be accepted in lieu of W-2 forms to document annual earnings if needed. A completed Request for Verification of Employment (Form 1005 or Form 1005(S)) is not eligible for standard income documentation unless used in conjunction with documents verifying variable income.
  - A verbal VOE from each employer within 10 calendar days of the note date. The verbal VOE should not indicate a significant reduction of hours or earnings.
  - A completed, signed, and dated IRS Form 4506-C is required for each borrower. The form should be executed. When tax returns are in file, Tax Return transcripts are required (unless the transcript request for current year is returned as No Record of Return, with a code 10 or the borrower is a victim of taxpayer identification theft). Any discrepancies between the two documents should be explained, and if necessary, additional documentation obtained.
  - Pay stubs and W-2s must be typed or computer generated. They should provide the borrower's full name, address, employer name, year-to-date earnings, and rate of pay.
  - If pay stubs reflects garnishments (child support, IRS, etc.), additional information will be required to determine if a monthly payment should be included in the debt-to-income ratio calculation.
  - W-2s should reflect a nine-digit Employer ID Number (EIN). Also, Social Security and Medicare withholding should be calculated at the appropriate rates on the W-2s and pay stubs.
- Self-Employed Borrowers:
  - Most recent two years of tax returns, personal and business if applicable (including all schedules)
  - A complete, signed, and dated IRS Form 4506-C is required for each borrower(s) personal tax return, the forms should be executed, and the transcripts included in the credit file. The tax returns and transcripts should be compared; any discrepancies should be explained, and if necessary, additional documentation obtained.

\* A period of two (2Y Full Doc, WVOE) year must be used in calculating the average overtime, bonus, and commission income. For Part-time employment, a minimum of no less than twelve (12) months may be considered case-by-case if positive factors are present to offset shorter history.

### 6.6.4. WRITTEN VERIFICATION OF EMPLOYMENT (WVOE)

- Two-year history with same employer is required.

- All gross receipts will have an expense ratio of 10% applied to them

If the borrower does not meet the requirements above, tax returns for the most recent 1 years (IRS Form 1040) are required to determine income and related expenses. If the current year is NROR the direct verification from the employer can be accepted.

If Borrower is a Seasonal 1099 Employee, Unemployment Income Compensation may also be used in qualification provided it can be documented with a 2-year history on Form 1099-G and comments from Borrowers Employer that the UEC is likely to continue are received. UEC must be confirmed on the 1099 Transcripts.

**Note:** 1099 forms covering a full 1-year period are not required when a borrower changes from being paid W-2s to 1099s while working for the same employer in the same position.

  - There is a relationship between the parties (W-2 transcripts acceptable unless other sources of income are utilized).
- Self-Employed
  - **Borrower pulled** Individual tax transcripts are required when the 4506C cannot be pulled by AD Mortgage. Business tax transcripts must be obtained if income from the business does not flow through to the borrower's personal tax returns or business income appearing on personal transcripts is not consistent with the income on the business tax returns.

The request of tax transcripts will follow AUS findings for the level of income documentation required. A 4506-C for will be required to be signed at time of disclosure, however, transcripts will only be requested at underwriter's discretion.

If the transcript request is returned with a code 10 or the borrower is a victim of taxpayer identification theft, the following requirements must be met to validate income;

1. Copy of the IRS rejection with a code of “Unable to Process” or “Limitation”.
2. Proof of identification theft, as evidenced by one (1) of the following:
  - a. Proof ID theft was reported to and received by the IRS (IRS form 14039).

#### 6.6.8. BANK STATEMENTS PROGRAMS

##### BANK STATEMENT INCOME DOCUMENTATION

The Bank Statement Income Program is available for self-employed borrowers only. Four bank statement documentation options are available.

- 12-month personal bank statements
- 24-month personal bank statements
- 12-month business bank statements
- 24-month business bank statements

## GENERAL REQUIREMENTS FOR ALL BANK STATEMENT INCOME PROGRAMS

The following are general rules for the Bank Statement Income programs. Refer to the specific borrower type for additional requirements.

- The borrower's business used for qualifying purposes must have been in existence for at least two years. The borrower also must own the business for at least two years in case of the change of ownership. A change in structure is allowed with proper documentation – example borrower previously was a sole proprietor but has changed structure to an LLC.
- All parties listed on each bank account must also be borrowers on the loan (personal bank statements)
- To understand the nature of business and its operations, underwriter may request the borrower or tax preparer to provide a written, signed statement to include the following information about the business:
  - The nature of the business
  - How income is generated
  - How long the business has been in existence
- Statements must be the most recent consecutive months available at the application date, all pages. Must comply with documentation age requirement in Section 6.2. Should Age from the most recent bank statement provided to note date is over the age requirement, additional statements must be provided to meet age requirements.
- Underwriter must verify the business is currently open and operating within 120 business days of the note date (see examples of verification methods within these Guidelines).
- Statements must support stable and generally predictable deposits.
- Unusual deposits should be documented. Unusual deposits will be determined by the underwriter's analysis of the loan file.
- Deposits/earnings trend showing a consistent decline over the prior years should not be considered as stable or usable income for qualification purposes. A written explanation for the decline should be obtained from the borrower and/or employer. In instances where there is sufficient information to support the use of the income, the most recent lower income over the prior 2-year period must be used and may not be averaged.
- Statements can be accepted from banks, thrifts, credit unions and other regulated financial institutions. Well-recognized payment processors such as PayPal can be considered on a case-by-case basis.
- Additional income deposited into the bank accounts but derived from a source other than the self-employed business may not be included in the bank statement average (personal bank statements).
  - W-2 earnings or other income sources not associated with self-employment, such as employed as a wage earner or spouse's income, must be documented using Full Doc.
  - When wage income is combined with bank statement documentation, a tax return is not required for the full income documentation, as this would invalidate the bank statements.

- The 4506-C is still required; however, box 7 should be checked and box 8 should be filled to obtain a transcript of W-2 earnings only.
- 4506-C is not required except as described above for co-mingled income.
- Tax returns and Transcripts are not required for the program and must not be provided. If Tax returns and/or Transcript are provided the loan will be ineligible for bank statement documentation.
- Bank Statements may be provided by Chase, Wells Fargo or other United States banking institutions along with a copy of printouts from accounts with verifiable URL references are acceptable. The bank statements must be translated to English.

### NON-SUFFICIENT FUNDS (NSF)

Non-sufficient funds (NSF) or negative balances reflected on the bank statement must be considered. Occurrences included in the analysis are subject to the following tolerances:

- 1 NSF occurrence is defined as one or more checks returned the same day or when the balance is negative for the day.
- If there are one (1) or more occurrences in the most recent three-month period, maximum of 3 NSFs occurrences in the most recent 12-month period are allowed.
- If there are zero (0) occurrences in the most recent three-month period, maximum of 6 NSFs occurrences in the most recent 12-month period are allowed.

Exception requests for tolerance deviations must include additional compensating factors outlined by the underwriter supporting the viability of income. Underwriter must consider the financial strength of a self-employed borrower's business.

### OVERDRAFT PROTECTION (FEES)

Overdraft protection (Fees) associated with a pre-arranged link to a savings account or line of credit must also be considered as NSF unless one of the following conditions exist:

- Overdraft protection from a depository account: Occurrences may be excluded if statements for the linked account confirm that (a) the linked account balance at the time of the transfer exceeded the amount of the overdraft transfer, (b) the linked account's balance did not report as zero or negative at any point during the statement period of the transfer, and (c) the linked account did not itself receive overdraft protection proceeds during the statement period of the transfer.
- Overdraft protection from a line of credit: Occurrences may be excluded if statements for the linked account confirm that (a) the line's credit limit was not exceeded during the statement period of the transfer and (b) a payment amount which equals or exceeds the sum of all overdraft protection occurrences analyzed in the statement period is made within 30 days after the statement close date.

### PERSONAL BANK STATEMENT DOCUMENTATION REQUIREMENTS

- 12 or 24 months complete personal bank statements from the same account (in a case of account being closed or inactive a different account may be considered). Online bank statements are acceptable if they clearly identify the account holder and the URL associated with the financial

institution.

- Multiple bank accounts may be used; however, only personal, non-business accounts may be used.
- Schedule C borrowers are considered self-employed. No Business ownership required for Schedule C borrowers
- If personal statement is used for business operations and reflects the company's revenue and expenses flow such statement will follow business bank statement requirements (expense ratio will be applied)
- Verification of the borrowers' business required. Standard 3rd party verification applies. (For Schedule C borrowers verification of employment/income)
- If the bank statements provided reflect payments being made on obligations not listed on the credit report additional information must be obtained to determine if the liability should be included in the borrower's debt-to-income ratio.
  - If the obligation does not belong to the borrower, supporting documentation is required.
  - If the borrower is the obligor on the debt, an account statement and pay history should be obtained to review the account for acceptability. The payment must be included in the debt ratio.

#### PERSONAL BANK STATEMENT INCOME CALCULATION

- 100% of stable and generally predictable deposits are used for income and averaged over 12 or 24 months (corresponding to the number of bank statements provided (12 or 24).
- Unusual deposits must be documented. The underwriter will determine what is considered unusual based upon the review of the loan file.
- Transfers between personal accounts should be excluded.
- Transfers from a business account into a personal account are acceptable.
- Any deposits from income derived from a source other than the self-employed business may not be included in the bank statement average.

#### BUSINESS BANK STATEMENT DOCUMENTATION REQUIREMENTS

- 12- or 24-months complete business bank statements from the same account (in a case of account being closed or inactive a different account may be considered).
- Personal account may be used along with Business Account. If personal statement is used for business operations and reflects the company's revenue and expenses flow such statement will follow business bank statement requirements (expense ratio will be applied) and would be counted towards the maximum accounts allowed to be used.
- Cannot use more than two accounts per business.
- Borrower must own at least 25% of the business.
- Online bank statements are acceptable if they clearly identify the account holder and the URL associated with the financial institution.

- Business bank accounts, personal bank accounts addressed to a DBA, or personal accounts with evidence of business expenses may be used.
- Verification borrower is 25% or more ownership of the business required. Standard 3<sup>rd</sup> party verification of business requirements applies.
- Borrower will receive credit for the deposits equal to ownership percentage of the company:
  - Example – if the borrower owns 100% of the company, then 100% of the deposits can be contributed to the borrower. If the borrower owns 25% of the company, only 25% of the deposits may be credited to the borrower.
- Business income and expenses must be documented using the methods below (the minimum expense ratio for qualification purposes is 10%), in this order:
  - 1) Standard Expense Ratio:
    - A standard business ratio of 50% may be applied, and if loan qualifies applying such ratio, additional supporting documentation is not needed.
    - Ratios less than 50% would require a third-party prepared Business Expense Letter or P&L Statement.
    - If the underwriter believes the related industry has an expense ratio that is materially higher than 50%, the underwriter may require additional documentation at their discretion to support such-expense ratio.
  - 2) Business Expense Letter:
    - An expense letter specifying business industry and expenses as a percent of the gross annual sales/revenue, prepared and signed by either a CPA or a CTEC registered tax preparer or an IRS enrolled tax agent. The preparer must have a currently active license or status at following portals:
      - <https://irs.treasury.gov/rpo/rpo.jsf>
      - <https://www.irs.gov/tax-professionals/ptin-information-and-the-freedom-of-information-act>
      - <https://cpaverify.org/>
      - <https://www.irs.gov/e-file-providers/approved-irs-e-file-for-business-providers>
      - A CTEC registered tax preparer must have active license verified here <https://www.ctec.org/verify?nav=taxpayers>
  - 3) P&L statement – must be certified by a CPA, a CTEC registered tax preparer or an IRS enrolled tax agent – covering the same period as the bank statements. P&Ls and any letters that come from CPA/Tax Preparer/Enrolled Agent must be signed and include the preparation date. CPA, Tax Preparer or Enrolled Agent must have a currently active license or status at following portals:
    - <https://irs.treasury.gov/rpo/rpo.jsf>

- <https://www.irs.gov/tax-professionals/ptin-information-and-the-freedom-of-information-act>
- <https://cpaverify.org/>
- <https://www.irs.gov/e-file-providers/approved-irs-e-file-for-business-providers>
- A CTEC registered tax preparer must have active license verified here <https://www.ctec.org/verify?nav=taxpayers>
- License number must be provided.
- The expenses in the P&L statement must be itemized and reasonable for the nature of the business.
- CPA cannot be an employee or a relative of the borrower.
- The total of eligible deposits in the business bank accounts must support the 12/24-month P&L by being no less than 10% below the P&L Gross Revenue (P&L top line). If the deposits equal 90% or more of Gross Revenue, the P&L is deemed validated.

#### BUSINESS BANK STATEMENT INCOME CALCULATION

- Transfers from other accounts and wire transfers must be documented or excluded from the calculation.
- Income documented separately but co-mingled must be backed out of deposits.
- Statements should show a trend of ending balances that are stable or increasing over time. Decreasing or negative ending balances must be explained.

#### 6.6.9. ASSET UTILIZATION

Asset Utilization may be used to determine qualifying income as the sole source of income or to supplement other income sources. See the applicable AD Product Matrix for credit score and CLTV restrictions, in the case of income combination the stricter guidelines and higher LLPAs will be applied.

Gift funds are allowed, the borrower must contribute at least 20% from their own funds with maximum 80% CLTV. Gift funds are not allowed for CLTV above 80%.

Qualified Assets can be comprised of stocks, bonds, mutual funds, vested amount of retirement accounts and bank accounts. If a portion of the qualified assets are being used for down payment, closing costs, or reserves, those amounts must be excluded from the balance before analyzing a portfolio for income determination. Funds from foreign accounts in a verifiable financial institution along with translation and proper currency conversion rate are acceptable. Business assets are not permitted.

The following assets are considered Qualified Assets and can be utilized to calculate income:

- 100% of checking, savings, money market accounts, and Certificate of deposit (CD)
- 100% of the remaining value of public traded stocks, bonds, and mutual funds
- 70% of retirement assets

- 3-month seasoning of assets required
- Proceeds from cash-out excluded from Qualifying assets The income calculation is as follows:

Monthly Income = Net Qualified Assets / 60 Months\*

\*60 months used to assume a standard rate of return and income received for 5 years

Eligible trust assets include:

- Assets held in a revocable trust where the trustee to the trust is the borrower.
- Assets in an irrevocable trust where the borrower is the beneficiary, and the borrower has immediate access to the assets of the trust.
- Based upon the assets held in the trust, the above asset percentages apply.

Borrowers must have the lesser of (a) 1.1 times the loan balance or (b) \$1mm in Qualified Assets, both of which must be net of down payment, loan costs and required reserves to qualify. When borrowers are not the only holder of the account, the letter from other parties on the account must be provided stating that 100% of the account funds can be used by the borrower. When asset utilization is used to supplement other income sources, such income must represent less than 50% of the total qualifying income, the minimum asset requirements are waived, the stricter eligibility and worse pricing will be applied.

#### 6.6.10. RENTAL INCOME

Rental income can be used for qualifying. The following requirements apply:

- Rental income from a 1-unit primary residence or second homes may not be used
- Rental income may be used for the accessory unit subject to the following:
  - Appraisal to reflect zoning compliance is legal
    - Permit is not required to establish zoning compliance
  - Appraisal to include at least one comparable with an accessory unit
  - Income from the accessory unit from Owner-Occupied/2nd Home may not be used as qualifying income
- Required forms:
  - Single Family Comparable Rent Schedule (FNMA Form 1007) or AirDNA Rentalizer for the subject property (purchase with occupancy rate  $\geq 60$ )
  - 1-4 Family Rider Assignment of Rents for all investment properties (FNMA Form 3170)

If rental income from the subject property is not being used to qualify, form 1007 or AirDNA is not required.

Leases to companies owned or controlled, in whole or in part, by the borrower are prohibited and will not be accepted.

The treatment of the monthly qualifying rental income or loss in the total debt-to-income ratio varies based on occupancy of the property. If the property is a primary residence, the following applies:

- The monthly qualifying rental income must be added to the borrower's total monthly income (income is not netted against the PITIA); and
- The full PITIA must be included in the borrower's total monthly obligations when calculating the DTI. If the rental income or loss relates to a property other than the borrower's primary residence, the following calculations apply:
  - If the monthly qualifying rental income minus the full PITIA is positive, it must be added to the borrower's total monthly income.
  - If the monthly qualifying rental income minus PITIA is negative, the monthly net rental loss must be added to the borrower's total monthly obligations.
- The full PITIA for the rental property is factored into the amount of the net rental income or loss; therefore, it should not be counted as a monthly obligation.

If a property is rented on a short-term basis through a short-term rental facilitator (such as Airbnb), rental income may be documented through statements from short-term rental facilitators. For income calculation, use 75% of the average actual short-term rental income received over the most recent 12 months, minus PITIA. If there is no lease agreement, income may be considered only for Investment program purchase transactions using one of the following:

- 75% of the short-term rental income estimate from AirDNA Rentalizer, provided the occupancy rate is 60% or greater, or
- 75% of the Form 1007 market rent, but only if 1007 includes short-term rental comparable properties.

Refer to pricing matrices for maximum CLTV on short-term rental properties.

#### CALCULATING GROSS RENTAL INCOME FROM THE SUBJECT PROPERTY

Rental income from the subject property owned prior to loan application should be calculated using the borrower's federal income tax returns for the most recent 2-year period (Cash Flow Analysis of Schedule E) for 2-year Full Doc loans respectively. Income should be averaged. Net rental losses should be included in ratios as a liability. Schedule E must not be provided for alternative income documentation program. Rental income must be documented using fully executed lease (not required for subject property) for alternative income programs. New lease is acceptable for purchase transaction with 2 months payments.

For income calculations on Full Doc programs (non-ADU), the below items are required:

- For purchase transactions:
  - The rental valuation on appraisal form 1007; or
  - Actual value from the current lease agreement if transferred to the borrower from the seller; or
  - New lease is acceptable for purchase transaction with 2 months payments

- For refinancing transactions:
  - cash flow analysis of the Schedule E from the most recent year's federal income tax return; or
  - if rental income is not reported on Schedule E and the borrower can document a qualifying exception according to Fannie Mae requirements, actual rent will be used (lease, 1007 actual rent value)

For income calculations on alternative income programs (non-ADU), the below items are acceptable options:

- Actual rent will be used if provided (lease, 1007 actual rent value,); or
- If actual rent is greater than 1007 by 25%, then (for ex, threshold would be  $1007 * 1.25$ ); or
- If there is no actual rent provided, then rental valuation on appraisal form 1007 will be used

For income calculations on the accessory unit, the below items are acceptable options:

- For purchase transactions:
  - Use the lower of the market rent on FNMA Form 1007 or actual rent.
- For refinancing transactions:
  - Use the actual rent for the accessory unit from FNMA Form 1007 supported by a copy of the current lease agreement with two (2) months proof of current receipt

#### RENTAL INCOME FROM OTHER REAL ESTATE OWNED

Rental income from another property owned prior to loan application should be calculated using the borrower's federal income tax returns for the most recent period (Cash Flow Analysis of Schedule E) for Full Documentation program. Income should be averaged. Net rental losses should be included in ratios as a liability.

Schedule E must not be provided for an alternative income documentation program. Rental income for alternative income programs must be calculated using actual rent (lease, 1007 actual rent value) supported by 2 cancelled checks.

Rental income from ADU on other real estate properties will not be acceptable.

#### 6.6.11. VENEZUELA SPECIFIC

Income derived from business activity or employment in Venezuela, (regardless of borrowers' citizenship origin or legal status) is not eligible for qualification. Eligible products are:

- DSCR – Purchase & Rate/term loans will be limited to 60% maximum CLTV for Foreign National Transactions
- DSCR - Cash-Out will be limited to 55% for Foreign National Transactions

### 6.6.12. DEBT-SERVICE COVERAGE RATIO (DSCR)

General requirements:

- The DSCR calculation is as follows:
  - Debt-Service Coverage Ratio = Gross Income / Proposed PITIA
- DSCR calculation will be based on the total of both P&I of the 1st lien and the PITIA of the proposed second lien
- For DSCR eligibility requirements refer to the matrix

#### **When a long-term rent is used for DSCR calculation:**

100% of long-term rental value will be used for qualification purposes. Leases that have been converted to month-to-month are allowed.

Leases to companies owned or controlled, in whole or in part, by the borrower are prohibited and will not be accepted.

To calculate gross income, actual rent, or rental valuation from 1007 for non-ADU properties may be used:

- Actual rent reflected on:
  - 1007
  - Lease agreement new lease is acceptable:
    - for purchase transactions with 2 months' payments
    - for refinance transactions with 2 months' payments, if the actual rent exceeds the estimated market rent by more than 25%, the rents are capped at 125% (for ex, threshold would be  $1007 * 1.25$ )).

To calculate gross income, actual rent, or rental valuation for the accessory unit (ADU):

- For purchase transactions:
  - The lower of the market rent on FNMA Form 1007 or actual rent may be used.
- For refinancing transactions:
  - The actual rent for the accessory unit from FNMA Form 1007 may be used supported by a copy of the current lease agreement with two (2) months proof of current receipt

A vacant property is allowed with maximum 70% CLTV for refinance transactions.

If there is no actual rent available for review, then rental valuation on appraisal form 1007 will be used. If actual rent is greater than 1007 by 25% then the actual rent from a lease can be used with 2 cancelled checks provided (for ex, threshold would be  $1007 * 1.25$ ).

#### **When a short-term rent is used for DSCR calculation:**

75% of short-term rental value will be used for qualification purposes (to adjust for rental expenses).

To calculate gross income, actual rent, or rental valuation from AirDNA rentalizer may be used:

- Actual rent reflected on:
  - Short-term rental agreement (12 months average rental income)
  - 1007 (if reflected as short-term rental)

When no actual rental income is available for review, estimated short-term rental income may be used on purchase transactions only. In such cases, qualifying income may be calculated using:

- 75% of the short-term rental income estimate from AirDNA Rentalizer, provided the occupancy rate is 60% or greater, or
- 75% of the Form 1007 market rent, but only if 1007 includes short-term rental comparable properties.

For refinance transactions, short-term rental income is not permitted when the subject property is occupied under a long-term rental agreement. The short-term rent from accessory unit (ADU) is not allowed.

To proceed with a short term rent the borrower must comply with all state and county regulations for short term rental and sign the short-term rental addendum. The short-term rental is prohibited in VT state and the following counties in NY state (excluding condotels): Kings County, Queens County, New York County, Bronx County, Richmond County.

#### 6.6.13. REDUCED DOCUMENTATION FOR A SECONDARY BUSINESS

This section applies to Full Documentation loans. For alternative documentation, secondary business may be not provided.

Business tax returns, associated schedules, and profit and loss statements may be waived when all of the following requirements are met:

- Income/loss referenced on personal tax returns is generated from a secondary business that is not the borrower's primary income source; and
- Income/loss from each separate business is  $\leq 10\%$  of qualifying income for the transaction; and
- All losses are subtracted from the borrower's qualifying income.

If income from a business is used to qualify the borrower, or if business expenses are added back to income or a loss, then business tax returns, associated schedules, and profit and loss statements must be obtained. Discretion may be used whether to obtain all documentation for self-employed earnings when the secondary business may have a significant impact on the loan.

#### 6.6.14. CASH FLOW ANALYSIS

A written evaluation must be prepared of the analysis of a self-employed borrower's personal income, including the business income or loss, reported on the borrower's federal income tax returns. A copy of the written analysis must be included in the loan file.

## 6.7. QUALIFYING RATIOS

Refer to the Program Matrix for specific qualifying ratios per loan program.

| Back-End DTI | US Citizen, Permanent ; Non-Permanent / Foreign National |
|--------------|----------------------------------------------------------|
| Debt Ratio   | 50% / 43%                                                |

- All programs will be qualified at the greater of the fully indexed rate or the note rate.
- Interest Only payments are not eligible.
- Transactions resulting in significant payment shock should always be considered by the underwriter. The borrower’s income must clearly support the borrower’s ability to make the higher monthly payment. It is at the underwriter’s discretion to require additional verification of assets or a larger down payment as a compensating factor for a loan with high payment shock.
- First-time homebuyers with payment shock exceeding 250% are ineligible. Payment shock measures the increase in a borrower’s monthly housing expense compared to their current housing expense.  $\text{Payment Shock (\%)} = ((\text{Proposed Housing Expense} - \text{Current Housing Expense}) \div \text{Current Housing Expense}) \times 100$ , if the borrower is rent-free (with no housing expenses), the payment shock is not calculated.
- For other properties owned, documentation to confirm the amount and/or presence or absence of liability for P&I, taxes, insurance, HOA dues, lease payments or other property-related expenses must be provided.

### 6.7.1. RESIDUAL INCOME

All loans must meet the residual income requirements below.

- Residual income calculation must be calculated on each loan, except on loans that fall under business purpose lending.
- Residual income equals Gross Monthly Qualifying Income less the Monthly Debt obligation.
  - \$2,000 (FN and DSCR not applicable)

### 6.7.2. CREDIT TYPES FOR QUALIFYING RATIOS

#### REVOLVING CHARGES /LINES OF CREDIT

If the credit report does not show a required minimum payment amount and there is no supplemental documentation to support a payment of less than 5%, the underwriter must use the greater of \$10 or 5% of the outstanding balance as the borrower’s recurring monthly debt obligation.

#### INSTALLMENT DEBT

All installment debt that is not secured by a financial asset – including student loans, automobile loans and home equity loans – must be considered part of the borrower’s recurring monthly debt obligations if there are more than 10 monthly payments remaining.

### PAYOFF OF OR PAYDOWN OF DEBT

Payoff or paydown of debt solely to qualify must be carefully evaluated and considered in the overall loan analysis. The borrower's history of credit use should be a factor in determining whether the appropriate approach is to include or exclude debt for qualification. As a rule of thumb:

- Installment loans that are being paid off or paid down to 10 or fewer remaining monthly payments should generally not be included in the borrower's long-term debt.
- If a revolving account is to be paid off, a monthly payment on the current outstanding balance may not need to be included in the borrower's long-term debt, i.e., not included in the DTI ratio.
- Documentation should identify the source of funds used to pay off or pay down the debt and confirm there are sufficient verified assets remaining for the transaction.

### 30-DAY CHARGE ACCOUNTS

For open 30-day charge accounts that do not reflect a monthly payment on the credit report, or 30-day accounts that reflect a monthly payment that is identical to the account balance, borrower funds must be verified to cover the account balance. The verified funds must be in addition to any funds required for closing costs and reserves. The underwriter will include the balance of the 30-day charge accounts in the required funds to close and/or reserve amount.

### STUDENT LOANS

For all student loans, whether deferred, in forbearance, or in repayment, a monthly payment must be included in qualifying. Copies of the borrower's payment letters, or forbearance agreements must be provided so that a monthly payment amount can be determined. The monthly payment to be used is the lesser of:

- 1% of the outstanding balance, or
- The actual documented payment.
- If the actual documented payment is less than 1% of the outstanding balance and will fully amortize the loan with no payment adjustments, the lower amortizing payment may be used in qualifying.
- If the borrower is on an income-driven payment plan, the lender may obtain student loan documentation to verify the actual monthly payment is \$0. The lender may then qualify the borrower with a \$0 payment.

### AUTO LEASE PAYMENTS

Payment must be included in qualifying DTI unless:

- the account in question does not have a history of delinquency in the last 12 months, and
- the auto lease payments are paid by another party other than the borrower or out of a business account (i.e., such as 12 months of canceled company checks).

### ALIMONY, CHILD SUPPORT AND MAINTENANCE PAYMENTS

Payments must be included as a liability.

REO PROPERTIES OWNED BY BUSINESS AND PAID FROM BUSINESS ACCOUNTS

Payment must be excluded as a liability.

### 6.7.3. BUSINESS DEBT

Business debt appearing on the borrower's individual credit report will be included in the debt calculation unless the debt can be verified as a business expense and independent of the borrower's personal obligation.

#### Documentation Requirements

- Twelve (12) months canceled checks; or
- Automatic drafts from the business account
- Business debt being excluded from the monthly obligation must have a paid-on time payment history.

### 6.8. ASSETS

Assets to be used for down payment, closing costs, debt payoff, and reserves must be seasoned or sourced for 30 days. If cash out proceeds are used for reserves most recent 1 month's bank statement must be provided prior to closing where funds will be disbursed. Documentation must be provided to evidence seasoning and sourcing by any of the following:

- Most recent 1 month's account statements, or most recent quarterly account statement, indicating opening and closing balances, and reflecting a consecutive 30 days of asset verification
- Supporting documentation should be obtained for single, unexplained deposits that exceed 50% of the borrower's gross monthly qualifying income for the loan
- Documentation of large deposits is not required on refinance transactions
- Written Verification of Deposit (VOD), completed by the financial institution
- Must include the current and average balances for the most recent 1 month
- Large disparities between the current balance and the opening balances will require additional verification or supporting documentation
- Online bank statements are acceptable if they clearly identify the account holder and the URL associated with the financial institution (printouts from the financial institution printed and signed by financial institution officer are acceptable for qualification)
- Account statements must provide all of the following information:
  - Borrower as the account holder
  - Account number
  - Statement date and time-period covered
  - Current balance in US dollars
  - For new bank accounts with less than 30 days seasoning, all 'large' or 'unusual' deposits should be verified (even for DSCR where income not qualified)

### 6.8.1. PURCHASE TRANSACTION

If the deposit is being used as part of the borrower’s minimum contribution requirement, the AD will verify that the funds are from an acceptable source. “Buy before you sell” funds are considered an ineligible asset source on purchase transactions.

On Purchase transactions - Earnest Money/down payment deposits can be verified by one of the following methods:

- Escrow letter from a deposit holder along with evidence the funds have cleared from the borrower’s account.
- Copy of the borrower’s cancelled check written out to the deposit holder plus clearance from the borrower’s account.
- If the wire is going out from the borrower’s account and it is clearly going to the escrow company, this can be accepted as standalone documentation. If the deduction is a generic “wire transfer”, then a copy of the wire receipt or receipt from escrow is required.

Special consideration for purchases with escrow deposits made >12 months from date of application - ADM will accept Escrow deposit confirmation – Escrow letter, from a non- builder related/owned title agent holding the funds for closing.

Purchase contract assignment with purchase price increase is not allowed.

### 6.8.2. GIFT FUNDS

- Gift funds are acceptable on rate/term refinance transactions and no minimum borrower contribution is required. Gift funds are allowed for primary or second home purchase transactions with 80% CLTV without any contribution from the borrower. For CLTV above 80% CLTV, borrower must contribute at least 5% from their own funds. For investment transaction, the borrower must contribute at least 10% from their own funds with maximum 80% CLTV. Gift funds are not allowed for CLTV above 80% on Investment property. Other parameters can affect borrower’s contribution requirements, please, refer to the list below the matrix. See below matrix:

| Minimum Borrower Contribution per Occupancy | <=80% CLTV | >80% CLTV     |
|---------------------------------------------|------------|---------------|
| Primary Residence and Second Homes          | 0%         | 5%            |
| Investment                                  | 10%        | Not available |
| DSCR and Foreign National                   | 10%        | Not available |

- For WVOE and Asset Utilization, the borrower must contribute at least 20% from their own funds with maximum 80% CLTV. Gift funds are not allowed for CLTV above 80%.
- The first-time home buyers must contribute at least 5% from their own funds on Primary Residence and Second Homes and at least 10% on Investment. Gift funds are not allowed for CLTV above 80% on Investment property.

  - Private mortgages on the property are not allowed, the grantor’s soft-pulled credit report is required.
- Proof of transfer and receipt of funds. Acceptable documentation includes the following:
  - A copy of the donor’s check and the borrower’s deposit slip, or
  - A copy of the donor’s withdrawal slip and the borrower’s deposit slip, or
  - A copy of the donor’s check to the closing agent, or
  - A settlement statement showing receipt of the donor’s check. When the funds are not transferred prior to settlement, the lender must document that the donor gave the closing agent the gift funds in the form of a certified check, cashier’s check, other official check or wire.

### 6.8.3. MARKETABLE SECURITIES

- 100% of the vested assets in the form of stocks, bonds and mutual funds may be used for down payment, closing costs, and reserves. When used for the down payment or closing costs, if the value of the asset is at least 20% more than the portion of the amount of funds needed from the stocks, bonds, or mutual funds for the down payment and closing costs, no documentation of the borrower’s actual receipt of funds realized from the sale or liquidation is required.

- Reserves can be held in a financial institution outside of the US.

#### 7.1.1. CONDOMINIUMS

AD Mortgage accepts condominiums, and conducts limited review internally, regardless of LTV. Full review is not required. If condo project has active Fannie Mae Condo Project Manager approval or AD Mortgage Condo approval review may be waived. Master insurance and unit HOI must be provided. Underwriter may request additional documentation upon conducting internal review. Condo cannot be rural.

The maximum number of units that AD Mortgage will finance in any condominium project is 20% of the total units in the project greater than 4 units.

Project review is waived for:

- Detached condo units
- Units in a two- to ten- unit condo project, the project must not be part of a master association or larger development.

To qualify for the project waiver the following requirements must be met:

- the project is not in Condo Project Manager (CPM) with a status of "Unavailable"
- the project meets all applicable insurance requirements
- there are no unaddressed critical outstanding repairs or projects with evacuation orders
- the project is not terminating and is not involved in insolvency proceedings

#### LIMITED CONDOMINIUM REVIEW

- The condominium HOA is not party to an active or pending litigation that would disqualify the property from a limited review at the underwriter discretion. Details of the litigation(s) must be submitted with project review documentation to determine acceptability. Fannie Mae guidelines will be applied to determine the litigation requirements.

- Projects involved in litigation are typically ineligible and must meet all the following conditions to be considered:

- 1) Minor as defined by FNMA requirements
- 2) Non-structural in nature
- 3) Do not affect the marketability of the project units
- 4) The potential damages do not exceed 25% of HOA reserves OR there is documentation from the insurance carrier or attorney representing the insurance carrier that the

insurance carrier has agreed to conduct defense and the HOA insurance policy is sufficient to cover the litigation expense.

- Any projects with significant deferred maintenance or have received a directive from a regulatory or inspection agency to mark repairs due to unsafe conditions are not eligible. Significant deferred maintenance includes deficiencies that meet one or more of the following criteria:
  - Full or partial evacuation of the building to complete repairs is required for more than seven days or an unknown period of time
  - The project has deficiencies, defects, substantial damage, or deferred maintenance that:
    - is severe enough to affect the safety, soundness, structural integrity, or habitability of the improvements;
    - the improvements need substantial repairs and rehabilitation, including many major components; or
    - impedes the safe and sound functioning of one or more of the building's major structural or mechanical elements, including but not limited to the foundation, roof, load bearing structures, electrical system, HVAC, or plumbing.
- Commercial space in project up to 50%.
- The project, or the subject legal phase, must be 100% complete.
- Established Projects – at least 90% of the Total units in the project must be sold and closed. HOA must be conveyed to the unit owners.
- New Projects – at least 75% of the total units in the subject property must be sold (under contract).
- Projects cannot be managed and operated as a hotel, motel or resort, or that are primarily transient in nature even though the units are individually owned.
- The developer may not retain any ownership interest in any of the facilities related to the project. The amenities and facilities—including parking and recreational facilities—may not be subject to a lease between the unit owners or the HOA and another party. Parking amenities provided under commercial leases or parking permit arrangements with parties unrelated to the developer are acceptable. In new projects, such requirements may be waived at the underwriter's discretion, provided they do not violate other requirements.
- Mandatory upfront or periodic membership fees for the use of recreational amenities, such as country club facilities and golf courses, owned by an outside party (including the developer or builder) allowed when deemed reasonable via underwriter discretion.
- Projects for supporting or continuing care for seniors or life care facilities are ineligible
- Projects are ineligible if a single entity (the same individual, investor group, partnership, or corporation) owns more than the limits below. Vacant units owned by the developer and actively marketed for sale may be excluded from the calculation; however, any units leased by the developer must be included when determining the developer's percentage of ownership. The single-entity ownership requirement may be waived if the transaction is a purchase that will reduce the single-

entity ownership concentration and result in a total concentration of 30% or less of the project's units.

- projects with 5 to 20 units – 2 units
- projects with 21 or more units – 30%

### 7.1.2. ACCESSORY DWELLING UNIT

AD will accept a one-unit property with an accessory dwelling unit (ADU). An accessory unit must have a fully functioning kitchen and bathroom. The appraiser is required to provide a description of the accessory unit and analyze any effect it has on the value or marketability of the subject property.

If the property contains an accessory unit, the property is eligible under the following conditions:

- The property is defined as a one-unit property with an accessory unit
- Multiple accessory units are not permitted
- The appraisal report demonstrates that the improvements are typical for the market

Unpermitted ADUs, auxiliary structures and conversions are acceptable only if all of the following requirements are met:

- They are excluded from the appraised value
- They are typical for the subject market area
- The title commitment does not identify any violations related to the absence of permits

### 7.1.3. KITCHEN

Each property must have a fully functional kitchen. If a property has 2 or more units, each unit must contain a fully functional kitchen.

The kitchen must, at a minimum, contain the following:

- cabinets;
- a countertop;
- a sink with running water; and
- a stove or stove hookup (hotplates, microwaves, or toaster ovens are not acceptable stove substitutes).

### 7.2. INELIGIBLE PROPERTY TYPES

- Properties with condition rating of C5/C6 or fair/poor
- Properties with construction rating of Q6
- Model home leaseback
- Properties with a private transfer covenant
- Gross living area < 500 square feet (Each unit in properties containing two or more units must have gross living area of at least 500 square feet)
- Commercial or multifamily properties

- Condotels
- Cooperatives
- Geodesic dome homes
- Geothermal homes
- Timeshare or segmented ownership
- Acreage > 10 acres
- Unique properties
- Assisted Living Facilities
- Working farms, ranches, orchards
- Mobile home units
- Incomplete properties
- Rural properties
- Mixed Use
- Manufactured Housing
- Barndominiums

### 7.3. INELIGIBLE FIRST LIENS

- Negative Amortization
- Temporary Buydown
- High cost mortgage loans
- TX Refinance 50 (a)(6)
- Reverse 1st lien mortgage
- Balloon notes or features
- Loans in active forbearance or deferment.
- Unrecorded Mortgages
- Mortgages without a complete payment history
- Home equity lines of credit
- Interest only (First lien Interest Only allowed if Interest Only period ended. Qualify 1st lien Interest Only on Fully Amortized payment on remaining term after Interest Only period)
- Blanket loans
- Private Liens
- Liens not reporting to the credit bureaus (a credit supplement is not acceptable in lieu of the credit report)
- 1st liens with default interest rates above the note rate as ineligible liens for 2nd lien financing

## 8. INSURANCE AND TAXES REQUIREMENTS

AD Mortgage must verify borrower has an adequate insurance coverage in place for both first and second lien mortgages as per below requirements. AD Mortgage must be added as an additional insured on the HOI policy.

### COVERAGE REQUIREMENTS

Property insurance policies should be written on a "Special" coverage form or equivalent. At a minimum, the coverage must include the perils listed below:

- Fire or lightning
- Explosion
- Windstorm (including named storms designated by the U.S. National Weather Service or the National Oceanic and Atmospheric Administration by a name or number)
- Hail
- Smoke
- Aircraft
- Vehicles
- Riot or civil commotion

If a property insurance policy excludes or limits coverage of any of the required perils, the borrower must obtain an acceptable stand-alone policy that provides adequate coverage for the limited or excluded peril.

All property insurance policies must provide coverage on a replacement costs basis, with the exception of roofs. Any insurance policy that is not based on replacement cost will be considered ineligible.

Roofs must be insured but do not have to be insured on a replacement cost basis. Roofs can be covered under a schedule that converts to actual cash value. Policies that provide coverage on actual cash value basis for Personal Property and structures that are not buildings, are acceptable.

Additional requirements apply to properties with solar panels that are leased from or owned by a third party under a power purchase agreement or other similar arrangement.

### FIRST MORTGAGES

The minimum required property insurance coverage amount for a first mortgage must be equal to the lesser of:

- 100% of the insurable value of the improvements, as established by the property insurer; or
- the unpaid principal balance of the mortgage, as long as it at least equals the minimum amount—80% of the insurable value of the improvements—required to compensate for damage or loss on a replacement cost basis. If it does not, then coverage that does provide the minimum required amount must be obtained.

The underwriter must verify the coverage amount is not less than the minimum required as described above, and the verification source may be the property insurer, an independent insurance risk specialist, or other professional with appropriate resources to make such a determination.

If the coverage amount does not meet the minimum required, coverage that does provide the minimum required amount must be obtained.

Determining the Amount of Required Property Insurance Coverage provides a formula for determining the amount of property insurance coverage generally required for a first mortgage.

The following table describes how to calculate the amount of required property insurance coverage:

| STEP | DESCRIPTION                                                                                                                                                               |
|------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1    | Compare the insurable value of the improvements to the unpaid principal balance of the mortgage loan.                                                                     |
| 1A   | If the insurable value of the improvements is less than the unpaid principal balance, the insurable value is the amount of coverage required.                             |
| 1B   | If the unpaid principal balance of the mortgage loan is less than the insurable value of the improvements, go to Step 2.                                                  |
| 2    | Calculate 80% of the insurable value of the improvements.                                                                                                                 |
| 2A   | If the result of this calculation is equal to or less than the unpaid principal balance of the mortgage, the unpaid principal balance is the amount of coverage required. |
| 2B   | If the result of this calculation is greater than the unpaid principal balance of the mortgage, this calculated figure is the amount of coverage required.                |

Examples:

| CATEGORY                 | PROPERTY A | PROPERTY B | PROPERTY C |
|--------------------------|------------|------------|------------|
| Insurable Value          | \$90,000   | \$100,000  | \$100,000  |
| Unpaid Principal Balance | \$95,000   | \$90,000   | \$75,000   |
| 80% Insurable Value      | -          | \$80,000   | \$80,000   |
| Required Coverage        | \$90,000   | \$90,000   | \$80,000   |
| Calculation Method       | Step 1A    | Step 2A    | Step 2B    |

### DEDUCTIBLES AMOUNT

The maximum allowable deductible for all required property insurance perils is 10% of the property insurance coverage amount. When a property insurance policy includes multiple deductibles, such as a separate deductible that applies to windstorms, or a separate deductible that applies to a specific

property element such as the roof, the total amount for such deductibles applicable to a single occurrence must be no greater than 10% of the property insurance coverage amount.

#### RENT LOSS COVERAGE

Rent loss insurance is not required.

#### EFFECTIVE DATE REQUIREMENTS FOR PURCHASE TRANSACTIONS

All policies cannot go into effect more than 30 days prior to closing, and the policy must be paid in full prior or at closing. HOI effective date must start prior to or at the funding date.

#### EFFECTIVE DATE REQUIREMENTS FOR REFINANCE TRANSACTIONS

If HOI is expiring within less than 30 days from the closing date, the updated policy must be provided to be paid in full at closing.

If the policy expires within more than 30 days:

- and the escrow account for insurance is waived, then borrower shall be responsible for maintaining policy for the complete term of mortgage;
- and an escrow account for insurance is in place, AD will collect all outstanding payments, as well as the additional months required to ensure 13 months of payments at the time of renewal.

#### ACCEPTABLE FLOOD INSURANCE POLICIES

Flood insurance should be in the form of the standard policy issued under the NFIP or by a private insurer. The terms and conditions of the flood insurance coverage must be at least equivalent to the terms and conditions of coverage provided under the standard policy of the NFIP for the appropriate property type. The paid receipt and Policy Declaration page of a policy are acceptable evidence of coverage.

#### FLOOD COVERAGE FOR FIRST MORTGAGES

The minimum amount of flood insurance required for most first mortgages secured by one- to four-unit properties, individual PUD units, and certain individual condo units (such as those in detached condos, townhouses, or rowhouses) is the lowest of:

- 100% of the replacement cost of the insurable value of the improvements;
- the maximum coverage amount available from the NFIP, which is currently \$250,000 per dwelling; or
- the unpaid principal balance of the mortgage.

#### FLOOD REQUIREMENTS FOR PROJECT DEVELOPMENTS

If a first mortgage is secured by a unit in an attached condo project and any part of the improvements are in an SFHA, a CBRS, or an OPA, the underwriter must verify that the HOA maintains a master or blanket policy of flood insurance and provides for premiums to be paid as a common expense.

### FLOOD FOR INDIVIDUAL CONDO UNITS

Stand-alone flood insurance dwelling policies for an attached individual condo unit are not acceptable. A master condo flood insurance policy must be maintained by the HOA, subject to the coverage requirements below. (For detached units, refer to the requirements described in Coverage for First Mortgages above.)

### CONDO PROJECTS

The underwriter must verify that the HOA maintains a Residential Condominium Building Association Policy or equivalent private flood insurance coverage for the subject unit's building if it is located in an SFHA. The policy must cover all of the common elements and property (including machinery and equipment that are part of the building), as well as each of the individual units in the building.

The master flood insurance policy must be at least equal to the lower of

- 80% of the replacement cost, or
- the maximum insurance available from NFIP per unit (which is currently \$250,000).

If the condo project master policy meets the minimum coverage requirements above but does not meet the one- to four-unit coverage requirements (described in Coverage for First Mortgages), a supplemental policy may be maintained by the unit owner for the difference.

The contents coverage for the building should equal 100% of the insurable value of all contents owned in common by association members.

If the condo project has no master flood insurance policy or if the master flood insurance policy does not meet the requirements above, mortgages securing units in that project are not eligible for AD Mortgage financing.

### DEDUCTIBLE REQUIREMENTS FOR FLOOD

The maximum deductible allowed by AD for an NFIP or a private flood insurance policy:

- One- to four-unit properties: The deductible must not exceed the maximum deductible amount currently offered by NFIP for one- to four-unit properties insured under an NFIP Dwelling Form.
- Condo projects: The deductible must not exceed the maximum deductible amount currently offered by NFIP for condo projects insured by an RCBAP. This deductible requirement applies to all condo projects, regardless of the percentage of commercial space.
- PUDs: The deductible on individual attached or detached PUD units must not exceed the maximum deductible amount currently offered by NFIP for one- to four-unit properties insured under an NFIP Dwelling Form.

FLOOD PUD UNITS (attached and detached):

AD Mortgage requires the same flood insurance for individual PUD units that is required for other one-to four-unit properties (described in Coverage for First Mortgages above). A stand-alone dwelling policy may be maintained to meet these requirements.

UNACCEPTABLE FLOOD INSURANCE POLICIES

ACORD policies are not acceptable to document proof of flood insurance.

HAZARD INSURANCE

All insurance policies must meet one of the conditions below to be considered acceptable:

- Dwelling coverage on policy is equal to or greater than the appraised value OR
- Replacement cost estimator provided (excluding FL) OR
- Policy contains the verbiage “100% Replacement Cost”, “Guaranteed Replacement Cost”, “Replacement Cost Loss Settlement” or “Replacement Cost” for Dwelling coverage OR
- AD processor certification provided confirming coverage includes “replacement cost” (certification must include date/time, name/contact information of insurance agent) OR
- Coverage equals to the loan amount, as long as the loan amount equals to at least 80% of the insurable value per an RCE received by the insurance agent (if agent is unable to provide an RCE, AD processor cert confirming the insurable value amount will be required - cert must include date/time, name/contact information of insurance agent)

In addition, the policy cannot contain any exclusions and must have a maximum deductible of 10%. Property insurance policies that provide for claims to be settled on an actual cash value basis are not acceptable.

## 8.1 PROPERTY INSURANCE COVERAGE FOR UNITS IN PROJECT DEVELOPMENTS

REQUIRED COVERAGE FOR CONDO OR PUD PROJECTS

This topic covers requirements for master property insurance policies covering the common elements and residential structures of project developments.

The requirements applicable to condo projects in this topic also apply to two- to four-unit condos and detached condos, unless stated otherwise.

For the purposes of this topic and Individual Property Insurance Requirements for a Unit in a Project Development, the following definitions apply:

- Common elements refers to insurable, non-residential elements of a project development. Examples include, but are not limited to, clubhouses, parking areas or structures, and recreational facilities.
- Residential structures refers to the insurable elements of a building that contains one or more residences.

## DETERMINING IF A MASTER PROPERTY INSURANCE POLICY IS REQUIRED

The requirements for individual property insurance policies will vary based on the homeowners' association (HOA) legal documents and the master property insurance policy. The applicable requirements are:

- **PUD Requirements** — Individual property insurance policies as described in a section above are required for each property that AD originates in a PUD project unless the project's legal documents provide for a master property insurance policy that covers both the common elements and residential structures. In that case, AD will accept the master property insurance policy in satisfaction of its insurance requirements for the subject property. The borrower may still have to maintain an individual unit owner policy as described in Coverage Requirements in this topic.

When units located within a PUD are covered by a master property insurance policy maintained by the HOA, the underwriter must verify that the insurance provides coverage for both the common elements and residential structures.

When units located within a PUD are covered by individual property insurance policies maintained by their respective owner(s), the underwriter is not required to verify master property insurance coverage on PUD common elements.

- **Condo Requirements** — Master property insurance policies are required for the common elements and residential structures for each loan that AD originates in a condo project unless the condo project's legal documents require individual property insurance policies for each unit. In that case, the individual property insurance policy must meet the requirements in the section above.

When a master property insurance policy is required, the underwriter must verify that the master property insurance provides coverage for both the common elements and residential structures. The borrower may still have to maintain an individual unit owner policy as described in Coverage Requirements in this topic.

## INDIVIDUAL PROPERTY INSURANCE REQUIREMENTS FOR A UNIT IN A PROJECT DEVELOPMENT

To the extent the master property insurance policy does not cover the interior of the unit or improvements to the unit, the borrower must maintain an individual unit owner property insurance policy.

The underwriter must verify the coverage amount is sufficient to restore the unit to its condition prior to a loss event.

Coverage sufficiency should be based on the best information known or available to the underwriter, which may include information obtained from the borrower, in collaboration with the insurer, the HOA legal documents, or other professional with appropriate resources to make such a determination.

Please, refer to the section above (INSURANCE AND TAXES REQUIREMENTS) for coverage requirements, deductible requirements and named insured when an individual property insurance policy is required for a unit in a project development.

## COVERAGE REQUIREMENTS FOR PROJECT DEVELOPMENTS

When required, a master property insurance policy must be maintained with premiums paid as a common expense by the HOA, as applicable. The policy must cover all insurable property elements. Common personal property and supplies should be covered, if applicable.

Master property insurance coverage policies covering project developments should be written on a "Special" coverage form or equivalent. At a minimum, the coverage must include the perils listed in the following table.

### Required Perils:

- Fire
- Lightning
- Explosion
- Windstorm (including named storms designated by the U.S. National Weather Service or the National Oceanic and Atmospheric Administration by a name or number)
- Hail
- Smoke
- Aircraft
- Vehicles
- Riot or civil commotion
- Vandalism
- Sprinkler leakage
- Sinkhole collapse
- Volcanic eruption
- Falling objects
- Weight of snow, ice or sleet, or water damage

If a master property insurance policy excludes or limits coverage of any of the required perils, the HOA must obtain an acceptable stand-alone property insurance policy which provides adequate coverage for the limited or excluded peril. If the HOA's property insurance policy limits or excludes any required perils, the borrower must provide a stand-alone insurance with the appropriate coverage. The appropriate coverage must be the minimum required property insurance coverage amount for a first mortgage (8. INSURANCE AND TAXES REQUIREMENTS. FIRST MORTGAGES).

The policy must provide for claims to be settled on a replacement cost basis. Policies written on an actual cash value basis are not acceptable.

## REQUIRED COVERAGE AMOUNT

Insurance must cover at least 100% of the insurable replacement cost of the project improvements, including common elements and residential structures. An insurance policy that includes any of the following coverage, either in the policy language or in a specific endorsement to the policy, is acceptable:

- Guaranteed Replacement Cost, or

- Extended Replacement Cost, or
- Replacement Cost.

When the underwriter must verify the coverage amount is not less than the minimum required as described above, the verification source may be the property insurer, an independent insurance risk specialist, or other professional with appropriate resources to make such a determination.

Roofs must be insured but do not have to be insured on a replacement cost basis. Roofs can be covered under a schedule that converts to actual cash value.

#### POLICIES WITH COINSURANCE

Policies with coinsurance provisions can create additional risk for an HOA in the event of a loss if the amount of insurance coverage is less than the full insurable value. Master property policies that provide coverage at 100% of the insurable replacement cost value of the project improvements, including the individual units, alleviate the risk of a coinsurance penalty being applied in the event of a loss.

If the policy has a coinsurance clause, inclusion of an Agreed Amount Endorsement or selection of the Agreed Value Option (which waives the requirement for coinsurance) is considered acceptable evidence that the 100% insurable replacement cost requirement has been met. If an Agreed Amount/Agreed Value provision is used, the Agreed Amount must be no less than the estimated replacement cost value.

If the policy includes a coinsurance clause, but the coinsurance provision is not waived, the policy is still eligible if evidence acceptable to the underwriter confirms that the amount of coverage is at least equal to 100% of the insurable replacement cost value of the project improvements. This evidence (documentation) must be maintained by the underwriter.

#### MAXIMUM DEDUCTIBLE AMOUNTS

The maximum allowable deductible for master property insurance policies covering project developments:

- Per occurrence – The maximum allowable deductible for all required property insurance perils is 10% of the master property insurance coverage amount.
- Per occurrence, multiple deductibles – When a master property insurance policy includes multiple deductibles, such as a separate deductible that applies to windstorms, or a separate deductible that applies to a specific property element such as the roof, the total amount for such deductibles applicable to a single occurrence must be no greater than 10% of the insurance coverage amount.
- Per occurrence, per unit – AD will allow a per unit master property insurance policy deductible when the sum of the applicable per unit deductibles is greater than 10% of the coverage amount and all of the following requirements are met.
  - The master property insurance policy has a per unit deductible for named perils specific to a geographic area where such coverage is common and customary; and
  - The borrower's individual property insurance policy includes coverage for the applicable peril(s); coverage for master property insurance policy deductible assessments levied on the unit owner by the HOA for the applicable peril(s); and loss assessment coverage in an

amount sufficient to cover assessments in excess of 10% of the master property insurance policy coverage amount, divided by the number of units

#### SPECIAL ENDORSEMENTS

The requirements for endorsements for condo, and PUD projects are as follows:

- Building Ordinance or Law Endorsement, if the enforcement of any building, zoning, or land-use law would result in loss or damage, increased cost of repairs or reconstruction, or additional demolition and removal costs to rebuild after a covered loss event occurs. The coverage must include loss to the undamaged portion of a building, demolition costs, and increased costs of construction. The endorsement is not required if it is not applicable or the coverage is not obtainable in the insurance market available to the association; and
- Boiler and Machinery/Equipment Breakdown Endorsement, if the project has central heating or cooling. This endorsement should provide for the insurer's minimum liability per accident to at least equal the lesser of \$2 million or the insurable value of the building(s) housing the boiler or machinery. This coverage may be included in the property coverage form, obtained as an endorsement to the master property insurance policy, or the HOA may purchase a stand-alone boiler and machinery policy.

#### SPECIAL REQUIREMENTS FOR CONDO PROJECTS

Master property insurance policies for condo projects must be endorsed with a Condominium Association Coverage Form or its equivalent. The endorsement must include the following provisions or comparable language:

- Any Insurance Trust Agreement is recognized (ex. If you name an insurance trustee, we will adjust losses with you, but we will pay the insurance trustee. If we pay the trustee, the payments will satisfy your claims against us.)
- Waiver of Rights Recovery (ex. We waive our rights to recover payment from any unit-owner of the condominium that is shown in the declarations.)
- The policy must be primary, even if a unit owner has other insurance that covers the same loss. (ex. A unit-owner may have other insurance covering the same property as this insurance. This insurance is intended to be primary, and not to contribute with such other insurance.)

### NAMED INSURED

The table below provides the requirements regarding the name of the insured entity.

| COVERAGE TYPE    | REQUIREMENT FOR NAMED INSURED                                                                                                                                                                                                                          |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Condo projects   | The master property or flood insurance policy must show the HOA as the named insured. If the condo's legal documents permit it, the policy can specify an authorized representative of the HOA, including its insurance trustee, as the named insured. |
| PUD common areas | The master property or flood insurance policy must show the HOA as the named insured.                                                                                                                                                                  |

### BUILDER/DEVELOPER PROPERTY INSURANCE POLICIES

When a project is under development, it may be covered by the builder/developer's property insurance policy if the policy provides equivalent coverage to the requirements for project developments in this topic. When property coverage ceases per the terms of the builder/developer's policy, the HOA must obtain a master property insurance policy in accordance with AD's requirements.

Separate projects under development by the same developer will be considered affiliated during the period when control of the project has not yet transferred from the builder/developer to the individual owners or related HOA. The affiliated status of the subject project ends when the property coverage ceases per the terms of the builder/developer's policy.

### POLICIES COVERING MULTIPLE PROJECTS

Except as described below, unaffiliated projects may not share a master property insurance policy. Each project must maintain its own policy that meets AD requirements, as detailed throughout this topic.

If a property insurance policy that covers multiple unaffiliated projects provides a dedicated coverage amount for each individual covered project, the policy structure may provide equivalent coverage to AD's coverage amount requirements. The coverage amount dedicated to the subject project must be sufficient to cover the full replacement cost value of the project improvements including the common elements and residential structures.

The underwriter must review the insurance policy and any other associated documents needed to adequately evaluate the insurance coverage. The HOA must be protected in the same manner as if it maintained a master property insurance policy. The coverage of each insured project cannot be affected by any actions or omissions of unaffiliated projects covered by the same policy. Additionally, all other master property insurance requirements for project developments must be met.

## 8.2. TAXES

1. Property taxes that are due within 60 days of the first payment date must be collected in full regardless if escrowed or not.
2. The actual taxes will be used for escrow collection purposes on existing construction.
3. If the partner provides a tax estimate from the title company, assessor's office or the county or other acceptable Third-Party Vendor that is based on the fully assessed land value and improvements and is lower than the CoreLogic/Smart Fees estimator, that tax estimate may be used in lieu of the CoreLogic/Smart Fees estimate.
4. Real Estate taxes will be adjusted as per title commitment where required by the attorney's 3<sup>rd</sup> party vendor in New York unless the property is a new construction then follow the guidelines specified in the table below.
5. By Transaction Type:

| STATE            | Purchase Transaction (Existing Construction) | Purchase Transaction (New Construction) | Refinance Transaction (Existing Construction) | Refinance Transaction (New Construction)                                                     |
|------------------|----------------------------------------------|-----------------------------------------|-----------------------------------------------|----------------------------------------------------------------------------------------------|
| California       | 1.25% of the sales price.                    | 1.25% of the sales price.               | The current tax amount.                       | 1.25% of appraised value or current tax amount as long as it is not based on land value only |

HPML loans that are not Qualified Mortgages require full appraisal with an interior inspection, regardless of the loan balance.

Mortgaged properties must be originated with an appraisal in conformity in form and in substance with the Uniform Standards of Professional Appraisal Practice and that complies with (i) the appraisal requirements of the Financial Institutions Reform, Recovery and Enforcement Act of 1989 and (ii) the Interagency Appraisal and Evaluation Guidelines (75 Federal Register 77450).

### APPRAISAL INTEGRITY

AD Mortgage relies on appraisers to provide them with thorough, accurate, and objective appraisal reports that result in reliable opinions of market value so AD can make prudent underwriting decisions. The appraisal is used to judge the property's acceptability for the mortgage loan requested in view of its value and marketability.

Appraisers or supervisory appraisers must be state-licensed or state-certified (in accordance with the provisions of Title XI of the Financial Institutions Reform, Recovery and Enforcement Act of 1989 and all applicable state laws). Appraisers' state license or state certification must be active as of the effective date of the appraisal report. There is no specific requirement for appraisers' E&O minimum coverage.

AD Mortgage will pay particular attention and institute extra due diligence for those loans in which the appraised value is believed to be excessive or when the value of the property has experienced significant appreciation in a short time period since the prior sale. AD Mortgage believes that one of the best ways to reduce the risk associated with excessive values or rapid appreciation is by receiving accurate appraisals from knowledgeable, experienced appraisers.

If AD Mortgage has concerns with any aspect of the appraisal that result in questions about the reliability of the opinion of market value, AD Mortgage reserves the right to reject the appraised value.

In addition to the following, refer to Fannie Mae guidelines for appraisal requirements:

- Property condition rating must be: C1, C2, C3 or C4
- Quality of construction rating: must be: Q1, Q2, Q3, Q4 or Q5

- Appraisals should not include comparables greater than six (6) months old at the time of underwriter review. If comparables are more than 6 months old, an explanation from the appraiser is required.
- Properties with values significantly in excess of the predominant value of the subject property's market area may be ineligible.
- "Declining" Markets allowed with maximum of 75% CLTV
- If a loan file is closing under the name of a corporation, it is not necessary for the appraisal to be in the name of the corporation. The appraisal will only be required to reflect the borrower's full name.
- Fannie Mae/Freddie Mac Forms 1004/70, 1025/72, 1073/465 or 2090 must be used.
- Appraisals must be dated within 360 days of the Note date.
- After a 360-day period, a new appraisal is required.
- When two appraisals are required, the following apply:
  - Appraisals must be completed by two independent companies.
  - The CLTV will be determined by the lower of the two appraised values as long as the lower appraisal supports the value conclusion. The final inspection must be for the appraisal with the lower value.

The underwriter must review both reports and address any inconsistencies between the two reports and all discrepancies must be reconciled.

When more than one appraisal is provided, the CLTV will be determined by the lowest among all appraised values/purchase price.

## 9.2. APPRAISAL REVIEW REQUIREMENTS

### 9.2.1. THE FOLLOWING TRANSACTIONS REQUIRE A 2ND FULL APPRAISAL

1. Approved loan amount exceptions (when exceeding the max loan amount available per the matrix)

### 9.2.2. SECONDARY VALUATION PRODUCT REQUIRED FOR EVERY LOAN

An eligible secondary valuation product is required for all loan files, unless a second full appraisal is provided. If a loan has a second full appraisal, then lower of the 2 appraisal values will be used to qualify (for purchase transactions – lesser of the purchase price and appraised values). **The secondary valuation cannot be more than 10% less than the appraised value, otherwise it is deemed ineligible.**

For files requiring a secondary valuation product with AVM, below options are available:

- Secondary valuation waterfall **for SFR/PUD/Condo/2-4 units:**
  1. AVM with 90%+ confidence score from a different vendor is required.
    - The AVM with the highest FSD score (closest to zero) will be treated as the primary valuation product
    - The second AVM will be treated as the secondary valuation product and must support the primary AVM within 10%.
    - If both AVMs have the same FSD, the lower of the two property values must be utilized for determining the CLTV.
  2. If the second AVM is ineligible or unavailable, an alternative primary valuation product is required.

For files requiring a secondary valuation product with BPO, below options are available:

- Secondary valuation waterfall **for SFR/PUD/Condo/2-4 units:**
  1. AVM with 90%+ confidence score is required.
  2. If AVM is ineligible or unavailable, an alternative primary valuation product is required.

For files requiring a secondary valuation product with Drive-By appraisal, below options are available:

- Secondary valuation waterfall **for SFR/PUD/Condo/2-4 units:**
  1. AVM with 90%+ confidence score is required.
  2. If AVM is ineligible or unavailable, CDA is required.
  3. If CDA is ineligible or unavailable, full appraisal is required.

For files requiring a secondary valuation product with appraisal, below options are available:

- Secondary valuation waterfall **for SFR/PUD/Condo/2-4 units:**
  1. FNMA SSR CU score  $\leq 2.5$
  2. If FNMA SSR CU score is  $> 2.5$  or unavailable, then AVM with 90%+ confidence score is required.
  3. If AVM is ineligible or unavailable, CDA is required.
  4. If CDA is ineligible or unavailable, second appraisal is required & must be ordered at borrower's expense.

- Secondary valuation products may be required for certain flip transactions. Please refer to 5.1. FLIP TRANSACTIONS.

AD mortgage has no tolerance for property value speculations. In case property value is considered “high-risk” by AD’s Collateral and Appraisal Departments, the loan is expedited to the Credit Committee for additional value review, which may result in a decision to limit the loan amount to manage AD’s credit risk post-origination.

### 9.2.3. APPRAISAL RECONSIDERATION OF VALUE

Loan Officer can request reconsideration of value from AMC per borrower’s request. The client must fill Appraisal Reconsideration Form. ROV request is available only after appraisal review has been completed and it would be validated for the sufficiency and completeness prior to sending to the appraiser.

Regardless of the outcome of the ROV, the AD is responsible for ensuring the appraisal report and opinion of market value are reliable and adequately supported, and the updated appraisal is a subject to review by Collateral Team.

The ROV process is allowed when it is believed the opinion of value is unsupported; may be deficient due to unacceptable appraisal practices; or reflects prohibited discriminatory practices.

Only one ROV is permitted per appraisal, and the decision after ROV is final. After a loan has closed, ROV request is no longer allowed to be submitted by the borrower.

### 9.3. TRANSFER OF APPRAISAL TO AD MORTGAGE

AD will accept transfer of 1 appraisal per loan. For acceptable appraisal transfer transactions, the appraiser may not be on any AD Mortgage ineligible list including but not limited to: FHLMC Exclusionary List or FNMA Ineligible List. AD's name does not need to appear as lender on the appraisal. The Appraisal Transfer Letter must be executed by the lender that ordered the appraisal and must be signed by an authorized officer of the company. Appraisal Transfer Letters signed by Loan officer(s), Loan Processor(s), etc., will not be acceptable. AD will not accept appraisals in broker’s name, unless the broker’s company is also a lender. Appraisals which were ordered without AMC are unacceptable.

If a purchase transaction using a transferred appraisal meets the definition of a “flip transaction” as outlined in Section 5.1 – Flip Transactions, the transferred appraisal is ineligible for use in loan funding. In such cases, a new appraisal must be ordered through the AD Appraisal Management Center in accordance with standard appraisal ordering procedures.

Similarly, refinance transactions relying on a transferred appraisal that reflects an increase in property value and meets the “flip transaction” criteria in Section 5.1 are also ineligible. A new appraisal must be obtained through the AD Appraisal Management Center following established guidelines.

Flip transaction indicators include, but are not limited to, the following thresholds:

- More than a 10% increase in the sales price when the seller/borrower acquired the property within the past 0–90 days.
- More than a 20% increase in the sales price when the seller/borrower acquired the property within the past 91–365 days.

The percentage increase in sales price is calculated and then rounded **upward to the next whole percentage**. Any fractional percentage is rounded up (e.g., 19.15% → 20%).

The transferred appraisal is subject to a full Collateral Underwriting internal value review and acceptance by the CUW. AD reserves the right to reject a transferred appraisal if the integrity and/or quality of the appraisal report are questioned.

All transferred appraisals and supporting documentation comprising the appraisal package are not subject to revisions and are reviewed as is. Underwriters hold the right to reject a transferred appraisal if any revision is required to accept the appraisal package.

#### 9.3.1. APPRAISAL TRANSFER LETTER MUST INCLUDE THE FOLLOWING LANGUAGE

1. Provide on the lender's letterhead
2. Current date
3. Borrower name
4. Property address
5. A statement transferring all rights of the appraisal to AD Mortgage LLC
6. The "Transfer Letter" is to include the following statement:
  - a. (Transferring Lender's Name) certifies that this appraisal was prepared in accordance with and meets all requirements of the Agencies' Appraisal Independence Requirements (AIR) and is in compliance with all Lending regulations.
7. The Transfer Letter is to be signed by an employee of the transferring lender that is not in "Production" (i.e., Loan Officers, LO assistants, etc. are not eligible to sign the transfer letter)
8. The transferring lender, appraisal management company (AMC), appraiser selection, ordering policy and process, and the appraiser comply with all FNMA Appraiser Independence Requirements (AIRs), and Dodd Frank, and Consumer Protection Acts.
9. The transferring lender's name appears on the appraisal as the transferring lender / client.

Regardless of SSR CU score, an eligible form of secondary valuation (AD-pulled AVM with confidence score of 90%+ and value not more than 10% less than the appraised value) is required for each transferred appraisal.
- Borrower-Initiated Reconsideration of Value (ROV) Disclosure. The disclosure shall expressly state that the borrower is permitted to submit only one borrower-initiated ROV per transaction. This requirement may be satisfied by providing
  - the borrower with a written ROV disclosure contemporaneously with the appraisal report, or
  - documenting confirmation that such disclosure was provided, which may be reflected within the appraisal delivery certificate, the appraisal documentation, or a written confirmation issued by the lender or Appraisal Management Company
- Original appraisal invoice from the original lender. Appraisal fee will be disclosed on LE.
- Appraisal Independence Requirements (AIR) Certificate.
- If any modifications, corrections or material changes are required of the appraisal, a new appraisal must be obtained, no revisions will be accepted.
- After a 360-day period, a new appraisal is required.
- Appraisal Receipt Acknowledgment from the borrower within 3 days of consummation.
- A signed and dated Transfer Letter from the original lender to AD, releasing the appraisal, is required.
- A reason why the loan did not work out with the other lender (most recent approval letter showing conditions list) may be requested, subject to underwriter discretion.
- The transferred appraisal must be from the transferring lender.
  - An appraisal transferred from one lender to another lender, then to AD Mortgage is not acceptable.

### 9.3.3. APPRAISAL REVIEW REQUIREMENTS

- The transferred appraisal value has to be supported with a Secondary Valuation product (AVM).
- AVM value must be higher than original value or below the original value by 10% or less.
- If Secondary Valuation does not support the appraised value, a new appraisal is required.

  - The amount of title insurance coverage must be greater than or equal to the original principal amount of the mortgage.
- Other requirements
  - The title insurance coverage must include an environmental protection lien endorsement (ALTA Endorsement 8.1-06 or equivalent state form provides the required coverage).
  - References are to the Alta 2021 or 2024 form endorsement, but state forms may be used in states in which standard ALTA forms of coverage are not used in in which the 2021 or 2024 Alta forms have not yet been adopted. However, if these forms are used, AD must ensure that those amendments do not materially impair protection to AD. As an alternative to endorsements, the requisite protections may be incorporated into the policy.
  - Title policies may not include the creditor's rights exclusion language that ALTA adopted in 1990.
- Applicable Endorsements
  - Different property types (i.e., condos or PUDS) as well as different mortgage types may require additional title policy endorsements. AD's lien must be protected any endorsement that may be necessary to provide that protection.
- Errors and Omission Insurance

\$1,000,000.

## 10.2. TITLE EXCEPTIONS

The title to the subject property must be good, marketable and released of all encumbrances and prior liens. AD will not fund a mortgage secured by a property that has an unacceptable title impediment, including unpair real estate taxes and survey exceptions. If surveys are not required in particular jurisdictions, AD will require an ALTA 9 Endorsement. If it is not customary in a particular area to supply either the survey or an endorsement, the title policy must not have a survey exception.

#### REMOVING APPLICANTS

After initial disclosures have been provided to the applicant(s) on the loan application, if an applicant is subsequently removed from the loan application, the following applies:

- If removal is at the applicant’s request, prior to submission to Underwriting, the loan application must be closed for the purpose of “Withdrawn by Applicant” and a new loan application started.
- If removal of an applicant is sought due to the applicant’s credit profile, as determined by an underwriter, the loan application must be “Denied” and a new application started.

In both instances, new disclosures under the new loan number, excluding the removed applicant, are required.

<http://www.treasury.gov/resource-center/sanctions/Programs/Pages/Programs.aspx>
